

## Global PV Storage Insights

# Average PV energy storage price per 500MW in Tunisia

## Overview

---

How much does a photovoltaic project cost in Tunisia?

Tunisia has selected four photovoltaic projects totalling 500 MW in the first phase of the 1,700 MW call for tenders, with the best tariff being 0.029 euros per kWh.

How much money does Tunisia need to invest in renewable power?

Figures from Enerdata suggest that Tunisia will need to invest around US\$300 million a year until 2030 to reach a threshold of 500MW of annual renewable capacity additions, if it is to hit its target of accounting for 35% of power generation with renewable power.

Who has been awarded a contract for a solar PV project?

The contracts were awarded by the Ministry of Industry, Mines and Energy, and fall under two tenders. The first calls for submissions for eight PV projects, with a combined capacity of 800MW, and the ministry has awarded contracts to French firms Qair International and Voltalia, and Norwegian developer Scatec.
