Overview

How much does a solar battery backup cost?

For larger residential properties and small commercial establishments, solar battery backup systems in the 10-20kWh range typically cost between €9,000 and €18,000. This price range includes premium battery solutions from established manufacturers, advanced inverter technology, and professional installation.

How much does a battery storage unit cost?

Battery storage units come in various types, with lithium-ion batteries leading the European market due to their efficiency and longevity. For residential installations, entry-level lithium-ion systems (5-10 kWh) typically range from €4,000 to €7,000, while premium models can reach €12,000.

How much does a 7kWh Solar System cost?

A standard 7kWh system, suitable for a three-bedroom home, usually costs around €8,500. This investment typically includes the battery unit (€4,000-6,000), inverter (€1,500-2,000), and installation labour (€1,000-1,500). Additional components such as monitoring systems and smart controls add approximately €500-1,000 to the total.
