How many MW of new battery storage capacity does Greece have?

The Greek energy regulator has awarded 300 MW of new battery storage capacity in the nation's second energy storage tender, split among 11 projects. The tender is part of the country's 1 GW energy storage auction program. The projects range in size from 8,875 MW/17,75 MWh to 49,9 MW/100 MWh).

How often should energy storage projects be completed in Greece?

Investors will be expected to submit progress reports every three months to ensure timely construction. Greece's first energy storage tender took place last year. It awarded 12 energy storage projects, or 411,79 MW of capacity, with an average price of €49,748/MW per year.

How much does an energy storage auction cost in Greece?

The regulator said the auction was highly competitive, leading to an average tender price of €47,680 (\$51,506)/MW per year. Greece's energy storage auction program awards contracts-for-difference (CfD) over periods of 10 years. The submitted bids were capped at €115,000/MW per year, with the lowest successful bid set at €44,100/MW per year.

How much does a 1 GW energy storage tender cost?

The tender is part of the country's 1 GW energy storage auction program. The projects range in size from 8,875 MW/17,75 MWh to 49,9 MW/100 MWh). The regulator said the auction was highly competitive, leading to an average tender price of €47,680 (\$51,506)/MW per year.

What is the long-term business case for storage in Greece?

The long term business case for storage will be supported by increasing interconnection, opening ancillary services and Greece's accession to the market coupling platforms, but until then, public funding is required to

kickstart investment. Funding was first announced in 2021 as part of the National Recovery and Resilience Plan.

How much battery storage will Europe have by 2030?

However, based on current policies, the country looks set to hit only 4.8GW of operational battery storage capacity by 2030, as shown in the above infographic from LCP Delta's STOREtrack market intelligence platform covering energy storage across Europe.
