Average household energy storage price per 500kW in Cyprus

Overview

Current pricing runs €800-1,000 per kWh installed – a 10kWh system totals €8,000-10,000 before grants. Government subsidies immediately reduce this by up to €5,000, bringing your actual investment to €3,000-5,000. Which simply means payback in 3-5 years at current electricity rates.

A residential energy storage system (ESS) is a solution that stores energy produced by your home's solar panels (or from the grid) for later use. Think of it as a home battery — it stores excess solar energy generated during the day and powers your home at night, during cloudy days, or even during.
