# Average office building energy storage price per 500MW in Portugal

## Overview

---

How much does Portugal pay for energy storage projects?

With this in mind, the Portuguese Ministry of Energy announced on July 31 that it was awarding €99.75 million to a call for tenders for the installation of energy storage projects totalling 500 MW. Eligible projects can receive up to €30 million and be implemented at the transport and distribution level by the end of 2025.

Will Portugal support 500MW of energy storage capacity by 2025?

Image: Wikicommons. Portugal is looking to support at least 500MW of energy storage capacity by the end of 2025 via grant support. The country's Ministry of Environment and Energy has launched a competition for €99.75 million (US\$107 million) for grid-scale energy storage projects at the transmission and distributed-scale.

How much will Portugal spend on energy storage & grid flexibility?

The Portuguese Ministry of Energy has allocated €99.75 million (\$107.6 million) for grid flexibility and energy storage projects which should be installed by the end of 2025. From ESS News Portugal is seeking to promote flexibility and balance its power system with energy storage as it continues to break records for solar energy production.

How many projects were selected in Portugal's 2025 energy storage procurement?

A total of 43 projects were selected from 79 applications in Portugal's 2025 energy storage procurement. This included six projects from Spain's Iberdrola, which secured nearly EUR 20 million in public funding.

Will a 500 MW energy storage project help a greener economy?

The addition of at least 500 MW of energy storage projects "will enable significant advances in the decarbonization of the energy system and the

transition to a greener economy, aligning with the goals established in the National Energy and Climate Plan 2030.

How many MW of energy storage will be added to the grid?

The successful projects will together add at least 500 MW of energy storage to the public electricity grid. The call for proposals, which is part of the country's Recovery and Resilience Plan (RRP), was launched last summer. The list of approved projects can be seen in the statement by the environment and energy ministry of energy.
