The Central Electricity Board (CEB), under the Ministry of Energy and Public Utilities of Mauritius, has made significant strides in scaling up the deployment of solar (photovoltaics) PV systems under the Home Solar Project (HSP) scheme. The initiative is made possible through concessional funding.

However, it is essential to recognize that your personalized estimate may vary depending on all the factors that need to be considered in order to provide you with the most suitable solar power solution tailored to your specific lifestyle. All our systems are quality products designed with an aim.

he deployment of solar (photovoltaics) PV systems under the Home Solar Project (HSP) scheme. The initiative is made possible through concessional funding from Abu Dhabi Fund for Development (ADFD), which has availed USD 10 million to the project under the IRENA/ADFD Project Mauritius' commitment to.

Mauritius experiences an annual average of approximately 2,500 to 2,628

sunshine hours, depending on the specific region. 1 The annual output is about 1,600 to 1,800 kWh per kWp installed, depending on factors like location, solar irradiance, and system efficiency. 2 The average electricity cost. Are solar panels a good investment in Mauritius?

**Tax Incentives:** In Mauritius MRA offers tax credits to encourage the adoption of solar energy. These incentives can help reduce the upfront cost of installing solar panels, making them more financially attractive. **Low Maintenance:** Solar panels are relatively low maintenance.

How long do solar panels last?

Modern solar panels are durable and can last for 25 years or more. **Energy Storage:** By combining solar panels with energy storage solutions like batteries, you can store excess electricity generated during the day and use it during the night or during power outages, increasing your energy independence further.

How can I make Mauritius more eco-friendly?

By the way: CEB's Carbon footprint is still over 80% fossil so taking action yourself can help accelerate Mauritius to become more eco-friendly. This kit is ideal for small Mauritian households with 2 air-conditioning devices, refrigerator, washer and a water pump.
