Average utility scale ESS price per 5kW in Singapore

Overview

What is Singapore's first utility-scale energy storage system?

LAUNCH OF SINGAPORE'S FIRST UTILITY-SCALE ENERGY STORAGE. The Energy Market Authority (EMA) and SP Group today awarded two Singapore-led consortiums to implement the city-state's first utility-scale Energy Storage System (ESS). CW Group and Red Dot Power will receive about \$17.8 million in grants for the initiative to build this test-bed.

What is the uniform Singapore Energy price (Usep)?

The Uniform Singapore Energy Price (USEP) is the half-hourly energy price in the Singapore Wholesale Electricity Market. Energy withdrawal from the national grid is settled at the USEP. Since 2022, various measures were introduced to enhance Singapore's energy security and resilience.

What is Singapore's solar energy system (ESS)?

Built across two sites on Jurong Island, our ESS enhances Singapore's grid resilience by mitigating the impact of solar intermittency as the republic progresses towards achieving its 2030 solar target of at least 2GWp and energy storage systems deployment of 200MWh beyond 2025.

What is the utility-scale ESS?

The utility-scale ESS was commissioned in six months and commenced operations in December 2022. The utility-scale ESS is reported to be the fastest in the world of its size to be deployed. The utility-scale ESS helps to support the active management of electricity supply and improves the stability of Singapore's power grid.

Does Singapore have a resilient energy grid?

The Singapore government has implemented a good number of initiatives to ensure the resilience of the energy grid, including the use of energy storage systems ("ESS").

Does ESS need to scale in Singapore?

In Q4 2023, the EMA had put out a grant call to invite proposals for facilitating the wider deployment of ESS in Singapore. It is instructive to note that while grid-scale ESS needs to scale, there remain various challenges to ESS deployment, including the need for ESS solutions that are safer, denser and/or more cost-effective.
