# Average warehouse solar storage price per 150MW in South Africa

## Overview

---

How big is a solar PV storage market?

If a quarter of new build solar PV systems installed have a storage component coupled to it there could be a potential storage market of roughly 200MWh per annum which can be translated to roughly R2 billion market size in a year. Case studies that demonstrate the business case.

Should South Africa Invest in solar energy?

South Africa has an abundance of solar energy, we just need to make use of it. If more people invested in solar, loadshedding can be eliminated within a few years. Solar, wind, and storage replacing Eskom. Eskom is in what they call a Utility death spiral. Investing in a solar power system is like.

Why does South Africa need more warehouse space?

The significant need for more warehouse space provides builders and developers with a tremendous opportunity to grow their businesses. Currently, the cost of building a warehouse in South Africa can drastically fluctuate due to supply chain issues, material costs, and consumer demand.
