Business energy storage project financing options in Spain 2030

Overview

Will Spain get 20GW of new energy storage by 2030?

Spain is targeting 20GW of new energy storage by 2030. MITECO also launched a similarly-sized grant scheme specifically for co-located or hybridised energy storage projects, for which proposals were due in March 2023. Enel Green Power submitted two projects during the first quarter which fit the criteria, totalling 60MWh and 38MWh respectively.

Can Spain deploy large-scale energy storage with co-financing of 85%?

The European Commission on Monday greenlit a new aid scheme to enable Spain to deploy large-scale energy storage with co-financing of up to 85%. The European Commission on Monday approved a new aid scheme for the deployment of large-scale electricity storage in Spain.

How will the European Commission support large-scale energy storage in Spain?

The European Commission on Monday approved a new aid scheme for the deployment of large-scale electricity storage in Spain. Subsidies will be available for standalone energy storage sites, projects installed alongside renewable energy facilities, and storage planned as part of thermal power plants.

Will Spain back energy storage?

A public consultation exercise about the proposed funding program opened on Monday and will close on Friday. Spain already backs energy storage with more than €600 million of NextGenEU funding which was allocated as part of Spain's, post-Covid Recovery, Transformation, and Resilience Plan.

Will Spain have a solar power system in 2030?

A power system heavily solar dependent in 2030 will require high levels of short duration battery storage installed in Spain in the near future. Spain is

relatively isolated from other markets and only has limited import and export capacity to France, Portugal and Morocco.

Why are battery storage options more suitable in Spain?

As a result, shorter duration storage options like batteries are more suitable in Spain. In Spain, over 50% of excess renewable energy occurs in periods where there is continuous excess for less than 12 hours i.e. a battery that chooses to charge on this energy would be able to discharge within 12 hours.

Business energy storage project financing options in Spain 2030

Battery Energy Storage Financing Structures and Revenue ...

Financing structure options for standalone storage projects and hybrid solar plus storage projects. The pool of potential investors in these projects by allowing project owners to transfer ...

Spain Energy Storage Program Launches with EUR700 ...

Spain has launched a EUR700 million energy storage program to support battery, thermal, and pumped hydro projects, aiming to deploy 2.5-3.5 GW of capacity. The initiative, led by MITECO and backed by EU funding, ...

BW ESS and Ibersun to develop 2.2GW BESS portfolio across Spain

BW ESS and Spanish energy storage developer Ibersun have signed a joint venture to develop 2.2GW of utility-scale BESS projects across Spain.

Top 5 Energy Storage Financing Models , Huijue Group E-Site

Why Energy Storage Projects Struggle to Secure

Funding Did you know 43% of renewable energy developers abandoned energy storage projects in 2023 due to financing hurdles? The ...

Top 10 Energy Storage Companies in Spain , PF Nexus

Top 10 Energy Storage Companies in Spain: discover market leaders, buying and selling opportunities, and financing options on PF Nexus.

Spain PROJECT FINANCE

The usual ownership structure for the conduct of project finance in Spain is articulated through a newly created special purpose vehicle (SPV). The reason for the constitution of a new SPV for ...

Iberia: Why are there no batteries in Spain?

Iberia: Why are there no batteries in Spain? Spain's battery energy storage market is at a critical point. Despite being a leader in renewable energy deployment in Europe, the country has only ...

SPAIN

The market for utility-scale storage projects remains comparatively small at around 100MW, though a pipeline of projects is beginning to emerge.^{2,3,4,5} Much of Spain's existing utility ...

The Iberian green industrial opportunity: Sustainable ...

The European Union has set a target to reduce greenhouse gas (GHG) emissions by at least 55 percent by 2030 compared to the 1990 levels. ¹ To achieve this target, major changes are required in Spain's energy ...

Spain awards subsidies for 904 MW of energy storage projects

The ministry expects the selected projects to attract investments of around EUR 570 million, while contributing to Spain's target of reaching 22 GW of energy storage by ...

Spain sets new 2030 energy storage target of 22.5 GW

The Spanish government has set a new 2030 energy storage target of 22.5 GW in an energy strategy submitted to the European Commission. The nation aims to cover over ...

Unlocking Opportunity

Provided analysis and modelling to support storage developers, investors and operators on 30+ projects, including BESS, co-located assets and long-duration storage across markets.

The latest developments in the Spanish energy storage industry

The Spanish government is offering 160 million euros (\$170 million) in subsidies for energy storage projects, aiming to finance 600MW of projects coming online in 2026.

Storage batteries in Spain

Electricity is a resource easy to generate, transport and transform, but its storage is a constant challenge in today's energy landscape. In order to make the production of renewable energy more flexible and ensure its integration into ...

Spain increases green hydrogen goal , Reuters

Spain has increased its target for green hydrogen production capacity in a sign of confidence in an industry that has seen some energy giants scale back plans due to high ...

EU approves Spain's EUR700m energy storage subsidy plan

The European Commission on Monday approved a new aid scheme for the deployment of large-scale electricity storage in Spain. Subsidies will be available for ...

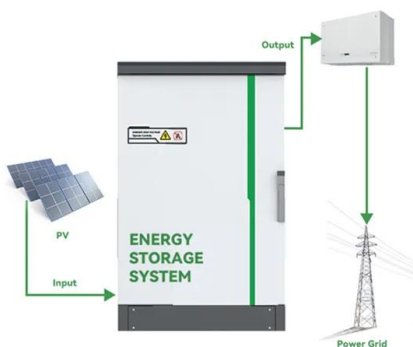

BESS in Spain: the situation of the energy storage ...

The market energy storage in Spain, particularly in relation to the BESS systems (Battery Energy Storage Systems), is undergoing a dynamic and accelerated evolution. This transformation is driven by the growing need to ...

Spanish govt approves energy storage strategy, sees ...

The Spanish government on Tuesday approved the energy storage strategy, targeting some 20 GW of storage capacity in 2030 and reaching 30 GW by 2050 from today's 8.3 GW.

The Project Financing Outlook for Global Energy Projects

Both the US and global energy storage markets have experienced rapid growth over the last year and are expected to continue expanding. An estimated 650 gigawatts (GW) (or 1,877 gigawatt-hours) of new ...

Top 10 Energy Storage Investors in Spain , PF Nexus

Here are Spain's top 10 energy storage investors, who are shaping grid flexibility, energy security, and decarbonisation. These major investors are funding high-impact initiatives like lithium-ion ...

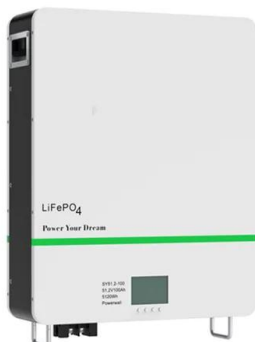

[Spain , WeVolt Energy](#)

The Spanish government has launched its 2030 Storage Strategy, aiming for 20 GW of capacity by 2030. In March 2025, the EU approved Spain's EUR700 million storage subsidy program, ...

Spain targets 20GW of energy storage by 2030 as part of new ...

...

Spain's government has approved an energy storage strategy that it says will put the country "at the forefront" of what is being done in Europe and help it move towards its 2050 ...

Key legal challenges and opportunities in Spain

Energy sector stakeholders in Spain--including developers, investors, and infrastructure operators--face a critical year of legal and regulatory developments. Renewable generation is hindered by declining prices, lack of ...

Spain second country in world for stand-alone battery-based ...

...

Renewable energy will cover almost half of the world's electricity demand by 2030, according to the Renewables 2024 report by the International Energy Agency (IEA), ...

Energy storage 2023: biggest projects, financings, offtake deals

A roundup of the biggest projects, financing and offtake deals in the energy storage sector that we have reported on this year. It's been a positive year for energy storage ...

Spain & Italy , BESS Premium Opportunities in Renewables

Tom Harries investigates Spain and Italy as emerging BESS markets. The IEA expects global installed energy storage capacity to expand to over 200 GW by 2030. 1 - ...

EU approves Spain's EUR700m energy storage subsidy plan

The European Commission on Monday greenlit a new aid scheme to enable Spain to deploy large-scale energy storage with co-financing of up to 85%.

Spain Receives Green Light for EUR700 Million Energy Storage

...

The European Commission has approved a significant EUR700 million (approximately \$763 million) aid scheme to propel the deployment of large-scale energy storage across Spain, marking a ...

The Project Financing Outlook for Global Energy Projects in 2025

Both the US and global energy storage markets have experienced rapid growth over the last year and are expected to continue expanding rapidly in order to support grid ...

Spain Receives Green Light for EUR700 Million Energy Storage

...

MITECO anticipates that the program will finance between 80 and 120 energy storage projects before 2030, collectively boasting a total project capacity ranging from 2.5 GW to 3.5 GW. This ...

Spain increases energy storage target in NECP to 22.5GW by 2030

The target for energy storage has been increased from 20GW in the previous NECP to 22.5GW by 2030. Image: Iberdrola. Spain has increased its energy storage target by ...

Spain awards contracts to 1.9GWh energy storage in ...

Spain is targeting 20GW of energy storage by 2030. This BESS was deployed by Ingeteam at a green hydrogen facility in Ciudad Real. Image: Ingeteam. The government of Spain, through the Institution for the ...

Spain launching grants for 600MW of energy storage

Spain is targeting 20GW of new energy storage by 2030. MITECO also launched a similarly-sized grant scheme specifically for co-located or hybridised energy storage projects, for which proposals were due in March ...
