Are energy storage systems a good investment?

This is understandable as energy storage technologies possess a number of inter-related cost, performance, and operating characteristics that and impart feed-back to impacts to the other project aspects. However, this complexity is the heart of the value potential for energy storage systems.

Where can I find the energy storage incentive levels?

The current incentive levels will be available on the NYSERDA Energy Storage Program website. All projects will reserve and lock in their incentive rate at the time a completed application is submitted and approved by NYSERDA. Projects up to 20 MW will have 18 months to achieve commercial operation upon receiving the incentive award.

How can the Department of energy improve the understanding of energy storage?
