Domestic energy storage supplier quotation in Luxembourg 2026

Overview

How much storage capacity will Europe have by 2026?

By the end of 2026, the European industry association even expects total storage capacity to increase by 300% to 32.2 GWh, equivalent to 3.9 million European households optimizing the self-sufficiency of their power supply and limiting their electricity costs.

Which European country has the best home storage market in 2021?

In the European country ranking of residential storage markets, Germany once again held the undisputed top position in 2021 with a market share of 59%. In a forecast up to 2026, SolarPower Europe expects Germany to remain the undisputed market leader in home storage during this period.

Which European storage countries have a good market share in 2021?

Thanks to the extremely successful "Superbonus 110" subsidy program, Italy was able to secure second place among European storage nations in 2021 with a market share of 14 %. Austria is in third place with 6%. The UK has dropped one place to 4th place, also with 6%. Switzerland is in fifth place with 3%.
