Enterprise ESS system supplier quotation in Croatia 2025

Overview

Will the external ESS market recover in 2025?

IDC expects that the recovery of the external ESS market will be pushed into 2025 as the strong growth in investments into computing infrastructure will start slowing down.

Will e-invoicing be mandatory in Croatia?

Yes, e-invoicing will be mandatory in Croatia. From 1 January 2026, all VAT-registered businesses must issue and receive electronic invoices for domestic B2B transactions. The same obligation already applies to B2G transactions. For B2C sales, electronic invoicing remains optional, but fiscalization becomes mandatory for all payments.

How will Croatia's new fiscalization Act affect e-invoicing?

Starting January 2026, businesses operating in Croatia will need to adapt their invoicing processes to comply with new e-invoicing and e-reporting obligations. This guide provides a comprehensive overview of the requirements, timeline, and how to stay compliant under Croatia's new Fiscalization Act.

How did the external OEM enterprise storage systems market perform in 2024?

The external OEM enterprise storage systems (ESS) market reported annual growth of 3.6% in the fourth quarter of 2024, completing the year at 2.5% annual growth and \$33.5 billion in spending. Despite a recovery cycle after declines in 2023 the spending for the year was just \$100 million shy from the level of spending in 2022.

How e-invoices can be exchanged in Croatia?

Croatia is implementing a decentralized e-invoicing model. This means that e-invoices will be directly exchanged between entities in scope, while the

information will be separately reported by the issuers and recipients. E-invoices can be exchanged via multiple methods, including the Peppol network.

What are the benefits of Croatian e-invoices?

Issuers and recipients of Croatian e-invoices will have access to pre-filled VAT returns based on the information previously reported. Status of invoices: Taxpayers in scope will also have information about the payment status of invoices. Improved VAT compliance: Reduces errors and enhances transaction traceability.
