Enterprise ESS system supplier quotation in Malaysia 2025

Overview

When will quota Submissions open for 2025 Malaysia expatriate Services Division (ESD)?

The Malaysia Expatriate Services Division (ESD) announced that quota submissions for Employment Pass (EP) and Professional Visit Pass (PVP) applications for 2025 opened on December 1, 2024. This allows companies registered with ESD to plan headcounts and align their workforce strategies for the coming year. The following are the key points to note:

Why should you choose fusionsolar ESS?

ESS are designed to complement solar PV systems and provide reliable and sustainable power. FusionSolar's ESS solutions are modular, scalable, and adaptable to different energy demands and applications.

Why is Malaysia launching a Bess project?

The inaugural development of public BESS project in Malaysia is part of the Government's efforts to support the energy transition and achieve the goals of increasing the country's installed renewable energy capacity to 70% and to achieve net-zero by 2050.

Should foreign players participate in Bess projects in Malaysia?

Nevertheless, given that the development of BESS projects in Malaysia is still at an early stage, participation of foreign players with experiences in energy storage system projects may be crucial to support and encourage further projects of the same nature to be developed in the Malaysia energy market in the future.

What is the capacity of EC's Bess project?

The total capacity to be acquired is 400MW/1,600MWh. In this regard, EC invites companies or consortiums that are experienced in implementing projects related to energy generation, and have the technical and financial

capabilities to develop, finance, and operate energy storage systems to participate in the BESS project. RFQ Documents.

Are Chinese manufacturers gaining a competitive edge in 2025?

Among the top five manufacturers, four are Chinese and one is American. As non-Chinese orders have been delivered throughout 2025, Chinese manufacturers are expected to gain a growing competitive edge globally. Strong performance in a single market is no longer enough to maintain global leadership.
