

## Global PV Storage Insights

# Expected ROI of residential solar battery project in Portugal 2025

## Overview

---

Why is Portugal investing in solar energy?

Portugal is increasingly prioritizing solar energy investments, reflecting a national commitment to sustainability and reducing carbon emissions in the energy sector. The solar energy market has grown significantly in recent years, driven by technological advances and declining costs.

What is the growth rate of solar energy in Portugal?

In Portugal, electricity generation within the Solar Energy market is anticipated to reach 7.20bn kWh in 2025. The sector is expected to experience an annual growth rate of 22.84%, representing the CAGR for the period 2025-2029.

How does solar energy work in Portugal?

Solar energy can be captured using solar panels, which are made up of photovoltaic (PV) cells that convert sunlight into electricity. The Portuguese solar energy market is segmented by end-user. By end-user, the market is segmented into residential, commercial, and industrial (C&I).

Will solar power power Portugal in 2022?

Further electricity generation from solar sources reached 2.54 TWh in 2022. Solar is expected to play a leading role in the Portuguese government's new energy plan, which includes providing 80% of the country's power demand from renewables by 2030 and 100% by 2050 and electrifying 65% of the economy by 2050.

Why is solar energy so expensive in Portugal?

Portugal faces some of the highest electricity prices in Europe, driven by taxes and network costs. With rising electricity costs making it more expensive to power appliances, heat water, and cool homes, solar energy offers a cost-effective solution.

Does Portugal have a solar potential?

While Portugal's revised National Energy and Climate Plan (NECP) and Long-Term Strategy for Carbon Neutrality (LTS) have raised targets for decentralised solar photovoltaic (PV) capacity, they remain below the country's solar potential.

## Expected ROI of residential solar battery project in Portugal 2025
