

## Global PV Storage Insights

# Expected ROI of wind solar storage project in Croatia 2026

## Overview

---

Where can I get solar power in Croatia?

Vedrine Solar Park: Also situated near Split, this solar park will generate 60 MWp, with completion expected in 2027. Ljubovo Wind Farm: Located in Lika-Senj County in central Croatia, the Ljubovo wind farm will have a target capacity of 120 MW, producing an estimated 349 GWh annually.

Where is the first wind farm in Romania?

Ruginoasa Wind Farm: Located in Iași County, this 60 MWp wind farm began operations in December 2023, marking the first new wind farm in Romania in a decade. DRI is advancing its renewable energy initiatives in Poland, with one active project so far:

When will Poland's first large-scale battery storage project start?

Trzebinia Battery Storage Project: DRI has secured the rights to develop Poland's first large-scale battery storage project in Chrzanów. Pending permitting approvals, construction of the 133 MW battery storage facility is set to begin in early 2026, with operations slated to commence in early 2027.

## Expected ROI of wind solar storage project in Croatia 2026

Discover the real ROI of energy storage in solar and wind projects. Learn how storage boosts value, reduces curtailment, and drives long-term project success.

## The latest developments in the Spanish energy ...

Current status of energy storage development in Spain Development Status Spain has been one of the leaders in Europe's renewable energy sector, investing heavily in solar and wind power over the past decade. At the same time, Spain ...

## US total solar capacity to reach 182 GW by end of 2026

The US Energy Information Administration (EIA) says cumulative solar installations are expected to double from 91 GW to 182 GW from the end of 2023 to the end of ...

## DRI Initiates Major Renewable Energy Projects in Croatia

Both projects, located in the southern Dalmatian region near Split, mark the beginning of DRI's ambition to establish up to 500 MW of wind and solar capacity in Croatia by ...

## Croatia's recovery and resilience plan

Following the unprecedented crisis caused by the COVID-19 pandemic, Croatia's recovery and resilience plan has responded to the urgent need to foster a strong recovery, while making Croatia's economy and society more resilient and ...

## Dutch DRI to build 127.5 MW wind farm in Croatia

Dutch-based DRI, the renewable energy arm of Ukrainian energy holding The DTEK Group, said it plans to build a wind farm in southern Croatia as the first step in DRI's ambition to build up a portfolio of up to 500 ...

## DRI developing 120 MW Ljubovo wind farm project in ...

The Ljubovo project is in a zone designated for wind power in Lika-Senj county in a mountainous area in central Croatia. The wind farm would generate an estimated 349 GWh per year, DRI said.

## DRI to develop 120 MW wind farm in Croatia

In addition to Ljubovo, DRI is working on two other projects in Croatia: the Brda Umovi wind farm and the Vedrine solar park, both located in Split-Dalmatia County.

## US total solar capacity to reach 182 GW by end of 2026

The US Energy Information Administration (EIA) says cumulative solar installations are expected to double from 91 GW to 182 GW from the end of 2023 to the end of 2026. Meanwhile, battery energy

## ENNA Solar to Acquire 87.52 MW Solar Project in Romania

ENNA Solar, a Croatian energy company part of ENNA Group, has signed an agreement with Austria's Kraftfeld Energy to acquire a ready-to-build 87.52 MW solar project in ...

## Korlat solar project praised for boosting employment, China-Croatia ...

With an expected annual output of 165 million kilowatt-hours, the Korlat solar plant will be able to supply electricity to around 50,000 households in Croatia. Once completed ...
