

## Global PV Storage Insights

# Expected ROI of wind solar storage project in New Zealand 2026

## Overview

---

How many solar and wind projects are there in New Zealand?

A long list of 147 solar, wind and geothermal projects have been announced by companies eager to find investment for a renewables boom. Massey University mathematics professor and climate writer Robert McLachlan said if every solar or wind farm that was announced got built, New Zealand would be flush with renewable energy.

Why is New Zealand getting more wind & solar power?

1.1. New Zealand is experiencing an increasing penetration of wind and solar generation due to the economic viability of these sources. Moreover, such an increase is aligned with the government's aspiration of 100 percent renewable electricity by 2030.

How important are wind and solar energy deployment rates?

Deployment of wind and solar electricity technologies is crucial for the energy transition, yet anticipated deployment rates differ widely often underestimating actual deployments. This issue is significant for countries like Aotearoa New Zealand, leading the way in major energy transitions.

Is solar New Zealand a good choice for geothermal energy?

Read market validation study - Solar New Zealand's geothermal energy is recognised for its baseload stability and reliability, making it a crucial way to meet increasing electricity demands and reduce carbon emissions. New Zealand has long led the world in geothermal innovation, exporting our technology and expertise to the world.

When are solar and wind technologies phased out?

The saturation levels for solar and wind technologies are the reviewed upper bound for each technology (as per ). Fossil fuels are phased out when renewable electricity capacity reaches the maximum reviewed total electricity

capacity.

What is solar energy in New Zealand?

Learn about solar energy in New Zealand, and its advantages and limitations. In October 2022, Electricity Authority data showed 43,641 solar systems installed across New Zealand, adding up to 240 MW. This makes up an estimated contribution of under 1% of total electricity consumption.

## Expected ROI of wind solar storage project in New Zealand 2026

---

### Renewable energy production and storage in New Zealand

It is promising to see some investment being made in small scale battery projects such as Meridian's 100MW energy park in Ruakaka (currently in construction), Contact ...

### Renewable Energy: How To Navigate New US Tax Rules And

The guidance is expected to include clarifications around how to determine when a wind or solar project has started construction, the determination of which has several ...

### Electricity price forecasts

Concept uses its proprietary New Zealand electricity market model, 'ORC', to forecast electricity prices from 2025 to 2047. This modelling produces Annual average prices Quarterly prices ...

### Electricity Demand and Generation Scenarios: Results

...

This report presents the results of this work and reflects our thinking, with the input from a range

of stakeholders, on a range of potential futures of New Zealand's electricity system.

## Saft to supply 200 MWh battery storage project in New Zealand

The energy storage project is expected to come online during the July-to-September period of 2026. Saft described the Huntly Power Station as "the single largest ...

## Solar energy in New Zealand -- facts and outlook , EECA

Discover the benefits, challenges, and future potential of solar energy in New Zealand -- from rooftop solar PV systems to emerging grid-scale opportunities.

## The need for energy storage: Firming New Zealand's ...

Our large hydro fleet gives rise to major year-to-year swings in generation of a scale that is much greater than countries whose renewable power is from wind or solar. We require significantly ...

## Te Rere Hau Wind Farm , Meridian Energy

The Te Rere Hau Wind Farm is located near Palmerston North on the Tararua Range, which offers some of the best wind resources in New Zealand. Originally constructed in 2006 with five ...

## Meridian Energy lands consent for 120MW solar PV ...

Meridian Energy, a New Zealand energy company, has secured planning consent for its 120MW Ruakaka Solar Farm in Tai Tokerau Northland.

## Renewable energy investment opportunities in New ...

Global demand for renewables is skyrocketing, and New Zealand is perfectly positioned to meet it, thanks to our abundance of accessible resources generated by hydro, wind, solar and geothermal.

## Renewable energy production and storage in New Zealand

In this update we explore the current state of New Zealand's renewable energy infrastructure and why it is critical to invest in both renewable energy production and storage ...

## 202 MW New Zealand agrisolar project reaches ...

The Harmony Energy New Zealand (NZ) and First Renewables joint venture (JV) have approved the final investment and successfully completed financial close on the 202 MW Tauhei Solar Farm on Aotearoa NZ's North ...

## Investing in New Zealand's Renewable Energy Revolution

As New Zealand pivots towards a sustainable future, renewable energy projects present a unique opportunity for investors looking to make a positive impact while reaping ...

## Atlas secures US\$510 million for Chile solar-plus-storage plant

Commercial operation of the 215MW solar and 418MW BESS Estepa project is expected by the end of 2026. Image: Atlas Renewable Energy. Solar PV developer Atlas ...

## Meridian and Nova form JV for 400MW New Zealand solar project

Meridian Energy has finalised agreements with Nova Energy to establish a joint venture (JV) for the construction and operation of the 400MW Te Rahui solar farm at Rangitaiki ...

## Chinese PV Industry Brief: Huaneng, TBEA announce ...

The solar plant is expected to be completed by the end of 2025, while the wind project is scheduled for completion by the end of 2026.

## Solar energy in New Zealand -- facts and outlook , EECA

While uptake in New Zealand has been slower to date, there is potential for greater utilisation as technology costs decrease, particularly at the grid-scale and on commercial building rooftops.

## New Builds and Upgrades

This \$486m investment will add a further 36 turbines to the wind farm and increase capacity from 43MW to a total of 198MW - making it the second largest wind farm in New Zealand. We're ...

## Spotlight: renewable energy project development in New Zealand

An overview of legal and practical considerations surrounding renewable energy project development in New Zealand, including project finance transaction structures and ...

## Aquila Clean Energy APAC and FNSF close financing for a ...

Aquila Clean Energy APAC and Far North Solar Farm close financing for a portfolio of four solar PV projects in New Zealand with an expected capacity of 180MWp This is ...

## New report shows offshore wind in New Zealand can flourish ...

A new report published today (14th August) illustrates the opportunity that the UK and New Zealand have to unlock the full potential of New Zealand's offshore wind industry.

## New Zealand Wind and Solar Generation Scenarios

This study analysed the wind and solar behaviour at multiple locations across New Zealand, modelling the generated wind and solar power from theoretical systems.

## Harmony syncs with First Renewables on 150 MW NZ solar farm

Renewable energy infrastructure developer Harmony Energy will team with New Zealand clean energy aspirant First Renewables to build what is expected to be the largest ...

## SolarWind , NZ's Solar, Battery & Wind Experts

Power your New Zealand home with SolarWind's high-quality solar panels, innovative wind turbines, and reliable home batteries. Achieve energy independence & save on power bills.

## Chinese PV Industry Brief: Huaneng, TBEA announce GW-scale ...

The solar plant is expected to be completed by the end of 2025, while the wind project is scheduled for completion by the end of 2026.

## Energy Sector in New Zealand: Reviewing 2024 and ...

A snapshot of key insights and developments in New Zealand's energy sector in 2024, as well as the trends that will shape the sector in 2025.

## Te Rere Hau Wind Farm , Meridian Energy

The Te Rere Hau Wind Farm is located near Palmerston North on the Tararua Range, which offers some of the best wind resources in New Zealand. Originally constructed in 2006 with five 500 kilowatt turbines, it currently has 91 turbines ...

## PUMPED HYDRO SCHEME

Investigate the ability of pumped hydro to address New Zealand's dry year problem by storing energy that can be converted to electricity during dry year events. Provide a backup to ensure ...

## **Work set to begin on \$227 million Northland solar farm ...**

Work is set to begin on a large solar farm in Northland, after Meridian Energy confirmed the project would go ahead. The consented \$227 million Ruakaka solar farm, south of Whangarei, would have 250,000 solar ...

## **Meridian to proceed with \$227m Ruakaka Solar Farm**

Ethical Power specialises in solar and battery energy storage systems, with an extensive track record delivering renewable energy projects in the UK, and a growing presence ...
