Floor standing battery tender price in Greece 2025

Overview

The bidding price for projects is capped at 145,000 euros per MWh, and the tender is open to standalone battery storage proposals with four-hour storage capacities.

The bidding price for projects is capped at 145,000 euros per MWh, and the tender is open to standalone battery storage proposals with four-hour storage capacities.

The average subsidy price in the third auction exercise came at €52589.16/MW/year. The lowest successful bid stood at €43927/MW/year, concerning a 25 MW/100 MWh project in the Western Macedonia region. The highest awarded subsidy came at €58773/MW/year and refers to a 7.9 MW/31.6 MWh project.

According to EnergyPress, the finalized list stands as follows: Bids in the tender round were priced at between EUR 33,948 per MW and EUR 64,122 per MW, with the weighted average price of the successful proposals standing at EUR 49,748 per MW annually. Bids were capped at EUR 115,000 per MW per.

These units will receive an average operational support slightly above €48,000 per megawatt. The highest bid was submitted by Plain Solar at €58,700 per megawatt, while the lowest came from Ecosolar at €42,500 per megawatt. The average bid price was lower than that of the first competitive process.

As for the average price, it landed at EUR 52,589.16 per MW per year in the auction. The lowest offer was EUR 43,927 per MW, by HELLENIQ Renewables, while the highest was EUR 58,773 per MW, by Plain Solar. The average prices in the first and second auctions were EUR 49,748 per MW and EUR 47,680 per.

Bids in the tender round were priced at between EUR 33,948 (USD 37,091) per MW and EUR 64,122 per MW, with the weighted average price of the successful proposals standing at EUR 49,748 per MW annually. Bids were capped at EUR 115,000 per MW per year. The lowest offer was launched by Helleniq.

All three competitive processes will have to take place within 2023 in order to bring the shortlisted stations into operation by 31 December 2025, according to the timetables set by the Recovery Fund from which the 200 million has been committed. euros for the implementation of the tenders. A. How many mw subsidized battery storage in Greece?

Home » News » Renewables » Greece awards 188.9 MW for subsidized battery storage in final auction Greece's third energy storage auction has been completed, with nine projects selected and a capacity of 188.9 MW.

How many projects have been awarded in Greece's first battery energy storage system?

The Greek Regulatory Authority for Energy has confirmed that 411.8 MW of projects have been awarded in the country's first standalone battery energy storage system (BESS) tender, which has attracted huge interest among developers. Investment and operating aid will be granted to 12 projects put forward by seven proponents.

What is the highest subsidy for a battery project in Greece?

The highest awarded subsidy came at €58773/MW/year and refers to a 7.9 MW/31.6 MWh project located in the same region. Greek firm Hellenic Renewables, which is a subsidiary of Helleniq Energy, offered the lowest successful bids for two battery projects of 25 MW/100 MWh each.
