Government procurement price of BESS in Brazil

Overview

The cancellation of a planned grid-capacity reserve auction (LRCAP) for hydroelectric, thermal, gas, and biofuel generation capacity has cast into doubt plans for a procurement round for battery energy storage systems (BESS) in the second half of the year.

The cancellation of a planned grid-capacity reserve auction (LRCAP) for hydroelectric, thermal, gas, and biofuel generation capacity has cast into doubt plans for a procurement round for battery energy storage systems (BESS) in the second half of the year.

A national procurement round for energy storage systems, planned in the second half of the year, is at risk of lengthy delay just as the grid operator is being forced to curtail large volumes of excess clean electricity. The Brazilian energy storage market is at a crucial point. The cancellation of

The Brazilian Minister of Energy and Mining has unveiled an auction for battery energy storage projects to be held in 2025. A public consultation regarding the auction should be launched in the coming days, as details regarding the capacity sought and the total amount allocated for the auction have.

Lower battery prices and increases to intermittent power generation could boost battery energy storage systems (BESS) in Brazil, reaching roughly 7.2GW of installed capacity by 2040 or higher with new regulations, according to a study by Brazilian consulting firm Clean Energy Latin America (CELA).

Brazil's government procurement market, worth hundreds of billions annually, is undergoing a major facelift. A new law implemented in 2021 streamlines processes, embraces electronic bidding, and boosts transparency. While local companies dominate, foreign firms can partner with Brazilian entities.

October 18, 2024: Brazilian minister of energy and mining, Alexandre Silveira de Oliveira, has announced the country's first large-scale battery storage auction to be held in 2025. A public consultation ahead of the auction will be held in the coming days and, according to a draft of auction rules.

The Brazil Battery Energy Storage Systems (BESS) market in the first quarter of 2025 is characterized by robust growth driven by the country's expanding renewable energy sector. Significant investments in Battery Energy Storage Systems Brazil are expected, especially with the announcement of the. Is there a Bess project in Brazil?

Image: A BESS project in Brazil from ISA CTEEP. The Brazilian Minister of Energy and Mining has unveiled an auction for battery energy storage projects to be held in 2025.

Will changes to Brazil's first capacity reserve auction undermine Bess?

Changes to Brazil's first capacity reserve auction of 2025 could undermine the expansion of the procurement regime to include battery energy storage systems (BESS) in the second exercise of the year, according to Markus Vlasits, chairman of Brazil's energy storage trade body.

Could a Bess auction boost renewables in Brazil?

The launch of a dedicated BESS auction in Brazil could help boost the growth of the technology in the country and further enhance the use of renewables such as solar PV and wind.
