Government procurement price of Solar Inverter in Norway

Overview

The government seems to consider that this will not be case, in particular because Norway Price is similar to the existing electricity subsidy scheme, and does not constitute a state intervention in the setting of electricity prices, neither in the end-user market nor in the wholesale market.

The government seems to consider that this will not be case, in particular because Norway Price is similar to the existing electricity subsidy scheme, and does not constitute a state intervention in the setting of electricity prices, neither in the end-user market nor in the wholesale market.

The government has proposed introducing a fixed price scheme for electricity of NOK 0.40 per kWh (Norway Price or the scheme) from 1 October 2025. The proposed scheme will be a voluntary alternative to the current electricity subsidy scheme that all households and holiday homes will be offered. The.

MERKUR is the Norwegian government's e-procurement portal. It is used by contracting authorities to publish tenders, receive bids, and award contracts. NOFF is a Norwegian government agency that provides support and guidance to contracting authorities on public procurement. GlobalTenders aggregates.

Substantial parts of the Public Procurement Act and the regulations are based on EU/EEA directives and aim to ensure fair competition and transparency in the procurement process. The different regulations share many common features and are based on the same principles, but they also have some.

Under the Public Procurement Regulation, contracting authorities, other than central government, are obliged to apply similar, but somewhat simpler, procedures to contracts with an estimated value equal to or above 1.3 million kroner (excluding VAT), similar to the EU/EEA threshold for central.

The subsidy is available for households in Norway. Step 2: Understand the Subsidy Amount The subsidy for solar installations post-October 2023 is NOK 7,500 + NOK 1,250 per kW installed. Calculate the potential subsidy you can receive based on your installation's capacity. Not sure about your.
