Government procurement price of battery storage container in Poland

Overview

The auction held by Polskie Sieci Elektroenergetyczne S.A. (PSE – an electricity transmission system operator in Poland and the sole operator of the country's high-voltage transmission lines, 100 percent owned by the State Treasury) on December 12, 2024, ended in the seventh Dutch auction.

The auction held by Polskie Sieci Elektroenergetyczne S.A. (PSE – an electricity transmission system operator in Poland and the sole operator of the country's high-voltage transmission lines, 100 percent owned by the State Treasury) on December 12, 2024, ended in the seventh Dutch auction.

OX2 has contracted capacity for two battery energy storage systems units in the main market auction for 2029 to the closing price 264.90 PLN/kW/year. The total capacity of the two units is about 200MW/400MWh and they are to be commissioned 2027-2028. The result of the auctions further strengthens.

The much anticipated capacity market auction for 2029 conducted by Polskie Sieci Elektroenergetyczne (PSE) ended in the seventh round with a price of PLN 264.90/kW/year (\$65/kW/year). Such a clearing price rendered gas projects uneconomical and left significant room for battery storage systems to.

As expected, Poland's latest capacity market auctions have highlighted a significant shift towards the battery energy storage systems (BESS) beside the fact that the de-rating factor has been significantly decreased. The auction held by Polskie Sieci Elektroenergetyczne S.A. (PSE – an electricity.

Polish government procurement is a significant economic driver, reaching PLN 280 billion (around €62 billion) in 2022. This marks a steady increase from PLN 220 billion in 2020. Over 120,000 contracts were awarded, with an average value of PLN 2.35 million (around €520,000). The Public Procurement.

Poland's National Fund for Environmental Protection and Water Management (NFOŚiGW) has opened a call for applications to co-finance electricity storage facilities, with funding from the Modernisation Fund. The programme has a total budget of \$1.02 billion and aims to improve grid stability and.

Poland has finalized a comprehensive subsidy program aimed at accelerating the deployment of battery energy storage systems (BESS), with a total budget of PLN 4 billion (approximately €1 billion). The program is co-financed by the European Union's Modernization Fund and the Recovery and Resilience.

Government procurement price of battery storage container in Poland

A 2024 Update on Utility-Scale Energy Storage ...

This Insight comes to you at the turning of the tide: after a period of increased pricing and supply chain disruptions, we are starting to see a return to reliable supply and declining prices in the battery energy storage markets. ...

Battery Energy Storage System (BESS) Procurement Checklist

Understand what's important in an RFP for BESS procurement, components and BESS quality inspections. Improve your battery energy storage supply chain and FAT planning.

Battery energy storage systems (BESS) on the rise in ...

Energy storage systems are a relatively new technology in the Polish capacity market. They have participated in two auctions so far: making their official debut in 2022 (with 2027 delivery year) and subsequently ...

European Energy wins battery auction in Poland
