

## Global PV Storage Insights

# Government procurement price of domestic energy storage in Greenland

## Overview

---

Declining costs of energy storage technologies, particularly lithium-ion battery storage, opens the potential for larger capacity and longer-duration energy storage projects to provide a broader range of grid services, including medium-term energy and capacity services (Schmidt et al. 2019).

Declining costs of energy storage technologies, particularly lithium-ion battery storage, opens the potential for larger capacity and longer-duration energy storage projects to provide a broader range of grid services, including medium-term energy and capacity services (Schmidt et al. 2019).

This work was authored, in part, by the National Renewable Energy Laboratory (NREL), operated by Alliance for Sustainable Energy, LLC, for the U.S. Department of Energy (DOE) under Contract No. DE-AC36-08GO28308. Funding provided by the United States Agency for International Development (USAID).
