

## Global PV Storage Insights

# Government procurement price of grid tied storage system in Israel

## Overview

---

Israel's storage tender sets prices between \$0.0056 and \$0.0085 per kW, with kWh figures therefore at \$49.41 to \$74.20 per kWh. Israel has awarded contracts for 1.5 GW of high-voltage battery storage capacity across three regions, marking a significant milestone in the country's.

Israel has awarded contracts for 1.5 GW of high-voltage battery storage capacity across three regions, marking a significant milestone in the country's energy transition.

The Israeli Electricity Authority (IEA) has awarded contracts for 1.5 GW of high-voltage battery storage across 11 projects in a recent tender. The awarded facilities will be developed in three key regions, helping integrate renewable energy into Israel's power grid. The tender attracted 11 bidders.

Israel's government procurement market is a significant economic driver, with annual spending reaching around NIS 170 billion in 2022. This represents a steady increase from NIS 140 billion in 2020. Defense procurement remains the largest category, consuming roughly 45% of the budget, followed by.

Find, search and filter Tenders/Call for bids/RFIs/RFPs/RFQs/Auctions published by the government, public sector undertakings (PSUs) and private entities. IsraelTenders is a domain owned and maintained by TendersOnTime (TOT). TOT is in the business of wide range of online Business to Business (B2B).

China-based Sungrow has agreed to supply Israeli developer Enlight with 430MWh of its storage systems. The batteries will be used in two projects secured by Enlight in tenders held by the Israel Public Utility Authority for Electricity. Israel-based wind and solar project developer Enlight.
