Home energy storage project financing options in France 2026

Overview

How will BNP Paribas support energy-efficient home renovation projects?

BNP Paribas aims to support 400,000 energy-efficient home renovation projects across Europe by 2026, thanks to its subsidiary BNP Paribas Personal Finance and its commercial banks. To support this dynamic, BNP Paribas is strengthening its offer for individual customers and apartment blocks in their energy refurbishments.

Who is Harmony Energy France?

Its subsidiary Harmony Energy France was founded at the beginning of 2022 to develop PV and storage projects in France. Harmony Energy aims to facilitate the transition to a sustainable energy system in environmental, financial and social terms, and has already installed more than 600 MW of batteries in the UK.

What barriers are preventing French energy renovation projects?

Carried out in February 2025, this study* sheds light on the two major barriers preventing the French from taking action on energy renovation projects: cost and red tape (such as accessing grants, selecting suitable contractors, etc.), which 72% of them find complicated.

How many GWh of storage will NW have by 2028?

We are very proud to have won the confidence of Rabobank and Santander, international banks with a particularly strong reputation in the energy transition, and this is a fundamental step towards our ambition of operating more than 5 GWh of storage by 2028", explains Jean-Christophe Kerdelhué, Founder and CEO of NW.

Home energy storage project financing options in France 2026

Invest in INNOVATION

Amarenco shapes the future with the Claudia project " Amarenco's Storage Business Line aims to develop large-scale stationary battery projects to provide frequency/voltage support and ...

Financing energy storage projects: assessing risks

In part one of this article, we discussed the types of energy storage and the incentives that are supporting its development. Now let's look at the financing issues and the project risks ...

Financing and Incentives

Consumers can find financial incentives and assistance for energy efficient and renewable energy products and improvements in the form of rebates, tax credits, or financing programs. Visit the following sections to search for incentives in ...

EU launches EUR4 billion funding for clean energy

The EU has launched a grant funding opportunity worth EUR4 billion for upstream and downstream clean energy projects, including energy storage.

State Aid

All demand response projects and energy storage systems that are likely to contribute to the development of low-carbon flexibility which will be available in 2024, 2025 or the first quarter of ...

Battery-Based Energy Storage: Our Projects and ...

TotalEnergies develops battery-based electricity storage solutions, an essential complement to renewable energies. Find out more about our projects and achievements in this field.

The 360 Gigawatts Reason to Boost Finance for Energy Storage ...

The Climate Investment Funds (CIF) - the world's largest multilateral fund supporting energy storage in developing countries - is working on bridging this gap. CIF is the ...

Energy Storage Overview of the 2023 Draft Updated National ...

EASE has produced an analysis of all draft National Energy and Climate Plans (NECPs) released in 2023, to help readers assess how, or even if, energy storage is accounted for in Member ...

Financing the Future: Novel Approaches to Funding Energy ...

Innovative financing models and public-private partnerships are paving the way for the large-scale deployment of energy storage technologies essential for integrating ...

Global Energy Storage Growth Upheld by New Markets

The global energy storage market is poised to hit new heights yet again in 2025. Despite policy changes and uncertainty in the world's two largest markets, the US and China, the sector continues to grow as developers ...

Energy Storage Grand Challenge Energy Storage Market ...

Foreword As part of the U.S. Department of Energy's (DOE's) Energy Storage Grand Challenge (ESGC), DOE intends to synthesize and disseminate best-available energy storage data, ...

Battery storage tax credit opportunities and development challenges
