Hybrid renewable storage tender price in Germany 2026

Overview

How can smart tender design help reduce renewable curtailment costs in Germany?

Smart tender design, allowing storage systems to charge electricity from the grid and earn additional revenue from wholesale market participation, will improve project economics and has the potential to reduce the ever-increasing cost of renewable curtailment in Germany.

Will Germany be able to develop distributed energy storage systems by 2028?

Through the innovation tenders, it plans to award contracts for up to 4 GWh to developers of distributed energy storage systems by 2028. The current energy crisis brought the need for smart integration of renewables into renewed focus with the build-out of green generation booming in Germany.

What are Germany's innovation tenders?

Germany's Innovation Tenders are cornerstones of Germany's energy transition as they serve to incentivise efficient integration of intermittent renewable energy set to enter the German power market.

How much will a hybrid power plant cost in 2025?

Research carried out by The Centre for Solar Energy and Hydrogen Research Baden-Württemberg (ZSW) showed that average costs for a hybrid power generation plant to be taken into operation in 2025 were 10.40 ct/kWh, well above the adapted tariff. The revenue opportunities for storage are there.

Is Germany ready for smart integration of renewables?

The current energy crisis brought the need for smart integration of renewables into renewed focus with the build-out of green generation booming in Germany. By the end of October 2023, Germany has witnessed the installation of nearly 12 GW of new PV capacity, already outpacing the annual target of 9 GW.

When will the LDEs tenders be held?

The LDES tenders had originally been anticipated to be held late this year and in 2025, but it is understood the timeframe has moved back a year. BDEW, Germany's biggest trade association for the energy and water industries, welcomed the opening of the consultation and the drawing up of the draft law by BMWK.
