Hybrid solar storage supplier quotation in Portugal 2026

Overview

Could energy storage be a business case for battery storage in Portugal?

It added that taxpayers will save €559 million over the next 15 years as a result of the auctions. Read about how experts at consultancy firm Clean Horizon view the inclusion of energy storage and the design of the tender as an “interesting first step” in creating a business case for battery storage in Portugal.

What does Portugal's energy storage tender mean for the energy transition?

Portugal’s government has announced the outcome of an energy storage tender that will see the installation of 500 MW of energy storage capacity to support the country’s energy transition. Energy storage battery. Photo by Anna Vasileva.

How does Portugal's high share of intermittent renewables affect grid stability?

Portugal’s high share of intermittent renewables poses challenges for grid stability. Balancing supply and demand, especially during peak generation periods, requires advanced grid management and energy storage solutions. The event will provide companies and industry leaders with the following opportunities:

How much does a solar auction cost in Portugal?

Portugal’s second solar auction has closed with record-breaking low prices of €11.14/MWh (US\$13.12), or US\$0.0131/kWh, the country’s government announced yesterday. Of the 700MW available for auction, 670MW was awarded, with Hanwha Q CELLS winning half of the 12 lots with bids that included battery storage.

Does Portugal need a power grid?

In recent years, with the proliferation of renewable power and massive

hydropower capacity, Portugal has been producing more power than its actual consumption, detailed GlobalData. However, having only grid connection with Spain, the excess generated power without a robust connected energy grid or ample storage could go to waste.

Is Portugal a 'competitive' country in terms of solar?

The results show that Portugal is among “the most competitive countries in the world in terms of solar,” he wrote in social media, adding: “What happened today is historic.” Portugal’s government said the solar auctions took place to create new business opportunities and promote a reduction in the cost of electricity.
