Industrial energy storage tender price in Sweden 2026

Overview

What is the public procurement portal for Sweden?

Welcome to the portal for Sweden! An overview of public procurement markets, such as market volume broken down by sectors and years, as well as Good Procurement Scores. Analyse and benchmark the degree of integrity in public procurement tenders. Analyse and benchmark the degree of transparency in public procurement tenders.

Will Sweden introduce a new capacity market mechanism in 2028-2029?

The Swedish government plans to introduce a new capacity market mechanism in 2028-2029 to support the further development of the energy storage market. The Swiss energy storage market is expected to grow from 318 MW in 2023 to 1.3 GW in 2030.

Is Sweden a good place to invest in battery storage?

As a result, Sweden remains an attractive market for battery storage investment in the years ahead. Sweden's BESS market is evolving with renewable growth, market shifts, and trading strategies. Learn how battery storage can thrive in Sweden's energy future.

Where can I find information on tenders in Sweden?

The information on eTenders, EOI, GPN and other public and private tenders from various industry sectors in Sweden is sourced from newspapers, government public procurement portals and individual purchasers websites. Fresh and verified Tenders from Sweden.

Can I trust swedentenders for accurate tender information?

You can trust SwedenTenders for accurate Tender information. All Tenders listed on our website are human verified for accuracy. You can receive free sample Tenders from Sweden by registering here. You can also get access to 1 Million Global Tenders by contacting Sales team.

How will Sweden's accelerating industrial electrification affect electricity demand?

Sweden's accelerating industrial electrification, which could double electricity demand over the next 20 years—from 140 TWh to over 250 TWh annually. Growing adoption of co-located BESS with wind and solar parks to enhance grid stability and optimise energy output.
