Lithium ion storage tender price in Argentina 2025

Overview

The AlmaGBA Storage tender, for the metropolitan area of Buenos Aires (AMBA), will pay a fixed \$10/MW of electricity supplied and energy storage capacity bids must have a maximum cost of \$15,000/MW/month.

The AlmaGBA Storage tender, for the metropolitan area of Buenos Aires (AMBA), will pay a fixed \$10/MW of electricity supplied and energy storage capacity bids must have a maximum cost of \$15,000/MW/month.

Argentina's lithium industry is poised for unprecedented growth, with official targets projecting a 75% production increase to 130,800 tonnes of lithium carbonate equivalent (LCE) by 2025. This ambitious expansion, driven by new projects in Salta and scaled operations in Catamarca and Jujuy.

The AlmaGBA Storage tender, for the metropolitan area of Buenos Aires (AMBA), will pay a fixed \$10/MW of electricity supplied and energy storage capacity bids must have a maximum cost of \$15,000/MW/month. Argentina's Wholesale Electricity Market Administration Company (CAMMESA) has published a.

In addition to awarding 30% more capacity than originally planned, Argentina's first battery energy storage tender could allocate an additional 222 MW to bidders willing to match the highest awarded price. From ESS News Argentina has successfully concluded its first battery energy storage tender.

Argentina has awarded 667MW of battery energy storage system (BESS) in its first tender under the AlmaGBA scheme. Nearly half of the volume submitted for the tender (1.3GW) has been awarded by the wholesale market operator CAMMESA (Compañía Administradora del Mercado Mayorista Eléctrico Sociedad).

Approved bidders will receive \$10/MW for electricity supplied, and the energy storage capacity bids must remain under a ceiling of \$15,000/MW/month—rates aimed at encouraging cost discipline without discouraging participation. Contracts will be signed with Edenor and Edesur, the country's major.

The Argentinian Ministry of Energy has launched the “AlmaGBA” Battery Energy Storage System (BESS) tender, aiming to deploy 500MW (4-hour duration, totaling 2GWh) to address electricity shortages in the Buenos Aires Metropolitan Area (AMBA). This project presents a significant opportunity for.
