Mobile ESS unit supplier quotation in Singapore 2025

Overview

What is ESS access & how does it work in Singapore?

Led by EMA, the ACCESS programme helps to facilitate ESS adoption in Singapore by promoting use cases and business models. It also looks at securing space, marrying demand with solution, and facilitating regulatory approvals for ESS deployment. Singapore's First Utility-scale Energy Storage System.

How much power does the ESS have?

It has a capacity of 2.4 megawatts (MW)/2.4 megawatt-hour (MWh), which is equivalent to powering more than 200 four-room HDB households a day. The ESS will participate in the wholesale electricity market to provide services that are necessary to mitigate intermittency caused by solar, as well as reduce peak demand.

How does ESS work?

Capable of actively managing mismatches between electricity supply and demand, our ESS can provide power to meet the daily electricity needs of around 27,300 four-room public housing flats in a single discharge.
