Renewable energy storage project financing options in Dominican 2025

Overview

The Superintendency of Electricity (SIE) has approved Resolution SIE-092-2025-LCE, establishing the technical and regulatory basis for a tender for up to 600 MW of new solar and wind generation capacity.

The Superintendency of Electricity (SIE) has approved Resolution SIE-092-2025-LCE, establishing the technical and regulatory basis for a tender for up to 600 MW of new solar and wind generation capacity.

The call, by the Unified Council of Distribution Companies (CUED), will be the first in the nation to require projects to include batteries with storage capacity of at least four hours. The aim is to provide stability to the National Interconnected Electric System (SENI). The Superintendency of.

The Dominican Republic has received approval from the Climate Investment Funds (CIF) Board for an US\$85 million investment plan aimed at transforming its energy sector and advancing energy independence through clean and sustainable energy sources. This funding is expected to mobilize over US\$1,100.

The Dominican Republic passed legislation on renewable energy in 2007 as part of its endeavors to achieve these targets. The main objective of this law is to increase the contribution of renewable energy sources in electricity generation to 25% by 2025. The DR government's efforts to encourage.

The Dominican Republic has launched its first tender for up to 600 MW of solar and wind capacity with mandatory storage, requiring all projects to include battery systems capable of at least four hours of backup. Winning projects, ranging from 20 MW to 300 MW, will sign long-term dollar-denominated.

Minister Joel Santos highlighted that 300 megabytes of storage are required by 2027.

The Dominican Republic is at a pivotal moment in its energy transition, driven by a strong commitment to sustainable development and decarbonization. Aligned with the Sustainable Development Goals (SDGs) and international

agreements such as the Paris Agreement, the country has made significant.
