## Overview

---

Who owns the energy renovation project in Belgium?

hold during the works. However, the households remain the project owner. Level 2 OSS in Belgium are the Local Energy Renovation Platform and the the Ene iehuizen currently strengthening their services via the FOSSTER project. The level 3 model: the OSS takes the full ownership of the energy renovation project. The household only ac.

Could a home renovation loan scheme improve living conditions in Belgium?

s, François-Olivier Devaux, Pascal Vermeulen  
EnergyInvest: Miguel Casas  
Financité: Annika Cayrol, Bernad Bayot  
Abstract: Setting-up a “Home Renovation Loan Scheme” could enable more Belgian households to financially access the deep energy renovation of their house and improve their living conditions while underpinning th.

Will Belgium become a more sustainable housing market by 2025?

In order to meet the international standards by 2025, the Belgian housing market needs to become a whole lot more sustainable. That transition to a more sustainable housing market entails several challenges, such as the increase of the amount to be financed for a home and the necessary energy renovations.

What funding streams are available for building renovations?

The most important funding streams available on EU level for financing of building renovations are For example, Cohesion Policy Funds have contributed to energy efficiency measures and investments with approximately €25 billion, of which around €17 billion for energy performance of buildings.

Will public funding boost energy efficient building renovations?

Increased public funding will, together with private capital, help boost EU building renovations to reach our energy and climate targets. Energy efficient

building renovations can be expensive and owners may not have the means to finance them.

How OSs can help upscale deep energy renovation financing?

w OSS to prefinance grants and request them on behalf of the homeowners. Strongly develop OSS renovation services, key enabler for the upscale of deep energy renovation financing, with integrated visions of OSS at regional level and with an “OSS certification & quality standard
