Residential ESS project financing options in Ireland 2030

Overview

Can I get a home energy upgrade loan in Ireland?

You must use the loan for home energy upgrades that are also funded by a home energy upgrade grant from the Sustainable Energy Authority of Ireland (SEAI). You can get the loan for the home you live in, or a property you rent out. The loan can be drawn down before you start the work.

How many buildings will Ireland retrofit by 2050?

It is expected that it will be necessary to retrofit more than 1.5 million buildings by 2050. Ireland's Climate Action Plan⁵ sets out a detailed roadmap for the period 2021 to 2030 with the objective of reducing CO₂ equivalent emissions from the built environment by 40%-45% relative to 2030 projections.

What is Ireland's long-term renovation strategy?

This Long-Term Renovation Strategy includes Ireland's existing building renovation policies which are set out in a range of policy documents most notably the Climate Act³ and the National Energy and Climate Plan⁴. This document does not change or amend policy and it does not provide a framework for development consent for projects.

Will Ireland be a business-friendly market for energy storage?

The publication of the Electricity Storage Policy Framework sends a clear and positive signal to potential developers and funders that Ireland intends to be a business-friendly market for energy storage, writes Seanna Mulrean, Consultant and Head of Energy and Natural Resources at LK Shields.

Does Ireland need an energy storage policy?

The Irish Government's Climate Action Plan 2021 set out the need for an energy storage policy for Ireland to support 75% reduction in power sector CO₂ emissions by 2030. There are 10 key policy actions in the framework

outlining the timings and key stakeholders involved in delivering them. Key points:.

What is the home energy upgrade loan scheme?

The Home Energy Upgrade Loan Scheme offers low interest rates for homeowners who want to make their property more energy efficient. The loans can be used to retrofit your home, or to carry out one or two upgrades that will significantly improve the energy performance of the home.

Residential ESS project financing options in Ireland 2030
