Residential ESS project financing options in Netherlands 2025

Overview

What financing options do you offer for residential property in the Netherlands?

We offer residential property development finance, construction financing, and investment financing for residential property in the Netherlands, with a ticket size ranging from EUR 10,000,000 to EUR 50,000,000. We also provide solutions to refinance investment property.

Is institutional capital flowing into the Dutch residential investment market?

Indications from some early movers suggest that institutional capital is once again flowing into the Dutch residential investment market. In the coming decades, there will continue to be a high demand for housing in the Netherlands.

Why is CBRE investing in the Netherlands in 2025?

In addition, these operational platforms can be easily expanded and optimised. CBRE expects a further increase in activity in 2025. This is because more and more of these types of investment opportunities are becoming available in the Netherlands.

How to create a new construction supply in the Netherlands?

To create additional supply, 40 percent of the total new construction target in the Netherlands must consist of mid-rental or affordable purchase homes. Both at the national level and through local authorities, efforts are being made to incorporate this into the programming of construction projects.

Can NIBC finance a property development project?

Whether you're looking for property development finance to fund a new development project or you are looking to refinance your investment property, NIBC is your trusted partner.

What are the different types of rental housing in the Netherlands?

With the introduction of the Affordable Rent Act, a new classification of the Dutch rental housing market emerged in mid-2024. We can distinguish between social housing, mid-rental, and private sector housing. The social segment, traditionally the domain of housing corporations, consists of homes with a rent up to €879.66.
