

## Global PV Storage Insights

# Rooftop solar battery project financing options in Australia 2026

## Overview

---

This guide, based on Clean Energy Council (CEC) data and industry insights, explores how to finance your solar system in Australia, from loans to leasing, with tips to optimize your rebates. A 6.6kW system generates ~9,000 kWh/year, saving \$1,800 at \$0.20/kWh in cities like Melbourne or Brisbane. How can I save money on a rooftop solar system?

There are government subsidies, rebates and loan options that can help you pay for rooftop solar or an associated battery for your home or business. You can save money on a rooftop solar system for your home or business through a range of government assistance schemes.

Is rooftop solar a good idea in Australia?

Tickler notes the outsized performance of rooftop solar has long been true in Australia, but this has not extended to other clean technologies, such as batteries. But here, too, the story is rapidly changing thanks to government subsidies that have put a rocket under the demand for household batteries.

How many Australians use rooftop solar?

It's a figure that amounts to about one in every three small-scale customers in the land. Tickler notes the outsized performance of rooftop solar has long been true in Australia, but this has not extended to other clean technologies, such as batteries.

Do you need a solar battery in Australia?

Rooftop solar has become a crucial part of Australia's renewable energy and solar batteries are growing rapidly in popularity. Find out more about installing a solar battery. If you want to install a rooftop solar system at your home or business, you might be able to get an upfront discount on the purchase price of your system.

Does Australia offer financial assistance for solar?

Some state Governments in Australia provide financial assistance for energy-efficient purchases such as solar and/or battery storage for solar, usually in the form of interest-free or low-interest loans. To find out what is available in your State, check out our Government Incentives page [here](#).

How do I decide if a rooftop solar system is right for me?

To help decide if a rooftop solar system is right for you, you need to understand how much electricity your home or business uses. This will also help you decide what size system you need. Contact your current energy provider to find out how much electricity you use.
