Households and farmers in Greece will be able to access government subsidy for their solar and storage systems under the Ministry of Environment and Energy (YPEN) new €200 million Photovoltaics on the Roof program, with special bonus of 10% for people with disabilities (PWS), single parents and.

However, there is no roadmap or strategy at this time in regards to rooftop solar PV in particular. Incentives for renewable energy projects include feed-in tariffs, feed-in premiums, and financial support for self-consumption projects such as net metering and virtual net metering. Various.

You can apply for the program "on the roof" and receive a grant. households for installation of photovoltaic systems with storage system .

The Greek Ministry of Environment and Energy issued a public call for its EUR 238 million subsidy program for rooftop photovoltaics. More than 3,500 applications have already been submitted to the online platform. The applications are open until the end of June 2024 or until the funds are depleted.

Greece will provide €238 million (~\$260.6 million) in subsidies to households and farmers for installing solar systems combined with a storage battery. The program will remain open until the end of June 2024 or until the available resources are exhausted. The maximum installed capacity eligible for. Will Greek government subsidise rooftop solar?

Rooftop solar array. Featured Image: Ralf Gosch/Shutterstock.com The Greek government has officially fired the starting gun of a EUR-238-million (USD 261.8m) programme that will subsidise the installation of rooftop solar systems coupled with battery storage.

How much will a rooftop photovoltaic subsidy program cost Greece?

Two more rooftop PV subsidy programs are expected, one for businesses and one for industries, with total funds for the sector expected to surpass EUR 700 million and potentially reach EUR 1 billion. The Greek Ministry of Environment and Energy issued a public call for its EUR 238 million subsidy program for rooftop photovoltaics.

Does Greece have a plan for rooftop solar PV?

November 2023, Greece submitted its NECP with more ambitious and updated targets for renewables and solar: 23.5 GW for all forms of renewables, from which 13.4 GW came from solar power capacity. However, there is no roadmap or strategy at this time in regards to rooftop solar PV in particular.

How much does the government subsidize rooftop photovoltaics?

In addition to subsidizing rooftop photovoltaics, the government has also enacted a EUR 100 million program for 120,000 solar thermal rooftop systems, with a subsidy level of 60% and a maximum support level of EUR 900 per household.

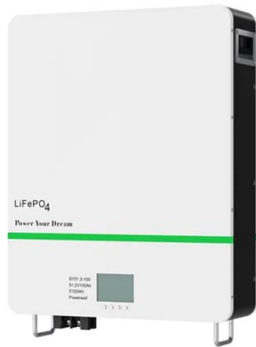

What is a 'photovoltaics on the roof' programme?

Featured Image: Ralf Gosch/Shutterstock.com The Greek government has officially fired the starting gun of a EUR-238-million (USD 261.8m) programme that will subsidise the installation of rooftop solar systems coupled with battery storage. The programme, dubbed Photovoltaics on the Roof, is open to households and professional farmers.

What impedes solar development in Greece?

Currently, probably the main reason that impedes solar development and that makes administrative procedures long and burdensome in Greece, including rooftop solar, is grid availability. In many areas, applications for solar rooftop PV are being rejected due to lack of electricity grid capacity.

## Rooftop solar storage project financing options in Greece 2026
