# School solar storage project financing options in Libya 2025

## Overview

---

Public Investment Fund (PIF): Key investor in localization and mega solar projects. Private Sector Participation (PSP) Law (2021): Encourages public-private partnerships (PPPs). Investment Law (2025): Levels the playing field for foreign investors. Will TotalEnergies build a 500MW solar project in Libya?

At the recently held Libya Energy & Economic Summit 2025 (LEES), TotalEnergies announced that it expects to progress its 500MW Sadada solar project this year. The project is being built in partnership with the General Electricity Company of Libya and the Renewable Energy Authority of Libya (REAoL).

What is the largest solar energy project in Libya?

In June 2022, Total Energies, in collaboration with the General Electricity Company of Libya (GECOL) and REAoL, launched the Sadada Solar Energy 500 MW project in Al-Sadada, which is set to become the largest of its kind in the country.

Is Libya a good place to invest in a diversified energy portfolio?

Libya's position as a country with abundant oil reserves and an average of 3,200 hours of sunshine per year presents a unique opportunity for a diversified energy portfolio.

Why should we invest in Sadada solar power?

The Sadada solar power project, by providing more reliable and cleaner electricity, will not only stimulate economic growth and create new job opportunities, but also pave the way for a more diversified energy mix.
