

## Global PV Storage Insights

# School solar storage tender price in Bulgaria 2030

## Overview

---

The program is set to cover up to 50% of costs, but no more than EUR 190,000 per MWh, excluding value-added tax. The public call would be for individual projects for 10 MW to 300 MW in operating power and storage duration of at least two hours, translating to 20 MWh to 600 MWh in.

The program is set to cover up to 50% of costs, but no more than EUR 190,000 per MWh, excluding value-added tax. The public call would be for individual projects for 10 MW to 300 MW in operating power and storage duration of at least two hours, translating to 20 MWh to 600 MWh in.

The Ministry of Energy in Bulgaria has invited public consultation for the development of 570 MW wind and solar power projects in the country, along with 150 MW battery storage capacity. According to the local media reports, the storage component should form 30% to 50% of the renewable energy.

The Bulgarian Ministry of Energy has launched two tenders to procure 1,425 MW of renewable capacity with 350 MW of energy storage. The two tenders, launched under Bulgaria's National Recovery and Sustainability Plan, have an overall budget of about BGN535m (€274m). Bids can be submitted until 12.

Bulgarian businesses can apply for funding under two new tenders that aim to facilitate 1,425 MW of renewable energy generation capacity coupled with 350 MW of energy storage. Funding support is only offered for the storage component. In Bulgaria's new procurement exercises, funding support is.

The Ministry of Energy in Sofia plans to launch a tender on September 2 for standalone energy storage systems. It issued the draft framework for public debate, which lasts one month. The government said it prepared EUR 589 million in subsidies for the construction and commissioning of a national.

Under the RESTORE initiative, launched through Bulgaria's National Recovery and Resilience Plan (NRRP), the Ministry of Energy has selected 82 projects that will collectively receive BGN 1.15 billion (approximately \$675 million) in public funding. This investment aims to expand the country's energy.
