Solar Inverter tender price in Poland 2026

Overview

Is there a demand for photovoltaic inverters in Poland?

As the photovoltaic market in Poland continues to evolve, the demand for inverters in the 20-150 kW range for commercial installations has largely been met with improved availability. However, as mentioned earlier, the market still experiences shortages of inverters above 200 kW, which can result in waiting times of over a year.

Are hybrid inverters a profitable investment in Poland?

The Polish market has yet to see a significant increase in the share of hybrid-type inverters, despite their potential to work with energy storage. Presently, the net-billing settlement regime in Poland does not make battery installation a profitable investment for most, resulting in a low battery attachment rate of under 5% in new installations.
