Integration**

## Overview

---

Should you choose an EPC contract for a solar project?

Given the significant monetary value of EPC Contracts, and the potential adverse consequences if problems occur during construction, the lowest price should not be the only factor used when selecting a Contractor. As noted earlier, an EPC Contract is one of a suite of agreements necessary to develop a solar project.

Will EPC contracts provide for the handover of a solar facility?

EPC Contracts will not provide for the handover of the solar facility to the Project Company, and the PPA will not become effective until all commissioning and reliability trialling has been successfully completed.

What happens if the EPC contract is uncertain?

Any uncertainty in the EPC Contract may unfortunately see the Contractor liaising directly with these third parties and possibly risking the relationship of the Project Company with key influencers, customers and long-term neighbours.

What are the disadvantages of an EPC contract?

Another major disadvantage of an EPC Contract becomes evident when problems occur during construction. In return for a guaranteed price and a guaranteed completion date, the Project Company cedes most of the day-to-day control over the construction.

Who is the appropriate party in an EPC contract?

At a fundamental level, it is imperative that the appropriate party corresponds with the relevant project stakeholders. The Project Company must ensure the EPC Contract states clearly that it is the appropriate party to correspond with any government agencies or authorities and the offtaker.

How does pvscm calculate tariffs & subsidies?

Tariffs and subsidies are noted in the spreadsheet's comments column. PVSCM is implemented using an Excel spreadsheet. It collects the cost elements for each category, then sums the categories to obtain the system cost, for both MSP and MMP. Unit conversion multipliers are listed on a separate sheet labeled "Factors."

## Solar Panel EPC turnkey quotation per 3MW 2026

---

### EPC , Solar Project Experts , Harvest Solar

Professional EPC services for solar projects - Over 14 years of experience, 2,000+ completed projects, and a focus on quality, safety, and efficiency.

### Solar EPC Turnkey Contracting - Emirates Electrical ...

We offer the dedication and experience of our DEWA-certified solar management team to undertake solar EPC turnkey contracting to a new level. Here, we provide in-house engineering, procurement, construction, and commissioning of ...
