Solar storage container EPC turnkey quotation per 5kW 2030

Overview

What is an EPC project?

EPC projects that are also known as 'turnkey' and as the contractor assumes responsibility for engineering services, procurement of materials, hiring of teams and materials, and execution of the work, among other tasks, to deliver the project ready to be operated by the client by a given deadline and with a number of guarantees.

What happens after a solar installation project is completed?

Once your solar installation project is complete and a quality inspection is finished, your solar system will be ready to hook into the grid and begin to transfer energy. Every component of your solar grid is tested, verified, documented, and maintained to perfection.

Why should you choose APC solar?

Whether you need single-site or multiple-site solar additions for commercial, industrial, microgrid, utility-scale, or agricultural areas, APC Solar has the right tools, resources, and industry experience to launch your solar project with success.
