Which Chinese companies are building a solar power plant in Chile?

Chinese companies have in recent years built, or announced plans to build, Chile's longest power line, solar plants and wind farms, while in battery storage, solar giant Trina has launched three projects in the country. John Bartlett is a British journalist based in Santiago, Chile, covering economics, politics and culture.

How much will battery costs fall by 2030?

Battery costs have fallen by 90% in the last 15 years, and the cost of utility-scale storage projects is projected to fall by 40% by 2030, according to a recent International Energy Agency report. Seebach notes that "this is an incredibly fast race, and you need regulation to generate confidence for investment.

Which energy companies are investing in storage?

At the moment, the country's four largest energy generation companies are leading the way with investment in storage: Engie, Enel, Colbún and AES Andes.
