

Global PV Storage Insights

Solar with battery project financing options in Switzerland 2026

Overview

The city, municipality and cantons offer further funding opportunities, which are clarified by Ampere Dynamic, for example additional subsidies for PV, but also carparks, charging stations, battery storage systems, roof renovations, ZEV subsidies or structural retrofitting measures. How many solar panels did Switzerland install in 2024?

Switzerland installed approximately 1.78 GW of new PV capacity in 2024, according to provisional figures from Swissolar. This marked an increase from 1.64 GW in 2023 and 1.08 GW in 2022, making 2024 a record year for new installations.

How will new solar regulations affect Switzerland's electricity grid?

“The new regulations encourage the temporary storage of solar production peaks, which helps relieve the electricity grids,” said Swissolar. Switzerland installed approximately 1.78 GW of new PV capacity in 2024, according to provisional figures from Swissolar.

What is the Swiss Federal Act on a secure electricity supply?

The Swiss Federal Council has adopted a second set of ordinances to implement the Federal Act on a Secure Electricity Supply from Renewable Energy Sources. The new regulations, set to take effect on Jan. 1, 2026, cover energy communities and minimum remuneration.

What are the new solar energy regulations?

The new regulations, set to take effect on Jan. 1, 2026, cover energy communities and minimum remuneration. The regulations encourage self-consumption and the storage of solar production peaks to ease pressure on the electricity grid.

How can distribution system operators reduce the cost of a solar system?

Distribution system operators can now set maximum feed-in power at the

connection point, reducing delays in connecting solar systems and limiting grid expansions. Solar system operators can store excess power in batteries or electric vehicles. Any imposed limitation must be compensated for if it results in more than a 3% annual yield loss.

Is 2024 a record year for new installations?

This marked an increase from 1.64 GW in 2023 and 1.08 GW in 2022, making 2024 a record year for new installations. However, Swissolar said it does not expect this growth to continue in 2025 and 2026, forecasting annual additions of 1.51 GW and 1.56 GW, respectively.

Solar with battery project financing options in Switzerland 2026

Switzerland expands rules for rooftop solar, storage, ...

The new regulations, set to take effect in 2026, introduce updated tariffs, encourage battery storage, and allow local electricity trading.

Financing battery storage+renewable energy

The solar and battery assets are owned by the same vehicle, which reduced the number of interfaces and ensured the debt financing process went smoothly. One of the features of the ...

Scatec reaches financial close for the 1.1GW solar

Oslo/Cairo, 15 June 2025: Scatec ASA has reached financial close for the "Obelisk" hybrid solar and battery storage project in Egypt. The non-recourse project financing comprises USD 479.1 million provided by the European Bank ...

African Development Bank, British International ...

Source: African Development Bank Group (AfDB) , Jun 16, 2025 African Development Bank, British International Investment and European Bank of Reconstruction and Development support

pioneering solar and battery ...

7 Best Solar Energy Financing Options Compared

With so many options available, comparing top solar lenders is essential to find the best financing solution for our solar energy projects. Each lender offers unique features, loan amounts, and credit score requirements, impacting our ...

Senate Version of BBB Would Extend Runway for ...

On June 16, 2025, the Senate Finance Committee released the text of its version of the "One Big, Beautiful Bill Act," which would phase out the investment tax credit (ITC) under Section 48E and production tax credit (PTC) under Section ...

A \$1 billion solar + battery storage project just broke

Renewables developer rPlus Energies has broken ground on one of the largest solar + battery storage projects in the US, in east-central Utah.

Switzerland expands rules for rooftop solar, storage, ...

Switzerland is expanding rules for rooftop solar, energy storage, and energy communities to expand self-consumption and ease pressure on the grid. The new regulations, set to take effect in 2026

Changing investment priorities in European solar ...

Returning in 2026 for its 13th edition, Solar Finance & Investment Europe Summit will bring together the brightest minds representing funds, banks, developers, utilities, government and industry

Solar Financing in India: Options & Benefits

Explore your options for solar financing in India, and discover the benefits of transitioning to renewable energy for both residential and commercial projects.

Solar Industry News o Solar Power News

Check out our selection of solar energy news from all over the globe. All the top recent events in solar thermal and photovoltaic market. The latest research, innovative technologies, industry ...

Solar Loans: Financing Rates, Loan Terms, and More

Solar Loans: Financing Rates, Loan Terms, and More While going solar carries the reputation of having a high upfront cost, more than half of solar owners choose to finance with solar loans. And many of those solar loans come with ...

Your Guide To Solar Battery Storage Financing

Solar batteries are one of the more expensive parts of a solar panel system, so it's helpful to know what financing options are available to you if you're considering adding a photovoltaic system ...

Scatec reaches financial close for the 1.1GW solar

The project will be constructed in two phases. The first phase of 561 MW solar + 100 MW/200 MWh battery storage is targeted to reach commercial operational date (COD) in ...

State Funding & Market

With the Energy Strategy 2050, Switzerland wants to structure its national electricity market in a CO2-neutral way. The federal government and some cantons and ...

Scatec and AMEA Power Secure Financing for Major Battery ...

The financial closure of two major large-scale projects in Egypt signifies a promising advance for the country's emerging energy storage sector. Recently, developers ...

Verano Energy secures USD 204 Million Project Finance facility to

Verano Energy has successfully closed financing for its Domeyko Solar + Battery Energy Storage System (BESS) project, an 83 MWp solar plant with 660 MWh of ...

Applications

Scatec reached financial close for Obelisk PV & BESS project in ...

Norway-headquartered Scatec ASA has reached financial close for the Obelisk hybrid solar and battery storage project in Egypt. It has secured \$479.1 million in funding from ...

Solar Loans: Compare Solar Financing Options

Solar panels can help reduce electric bills, but a solar energy system requires a large upfront investment. Personal loans and home equity financing are two ways to pay for solar panels.

Your Guide To Solar Battery Storage Financing

Solar batteries are one of the more expensive parts of a solar panel system, so it's helpful to know what financing options are available to you if you're considering adding a photovoltaic system to your home or business. Solar ...

Norwegian Player Closes the Financing for 1,000MW Hybrid Solar ...

The first of the two phase project is a 561 MW solar + 100 MW/200 MWh battery storage, targeted to reach commercial operational date (COD) in the first half of 2026. The ...

Scatec Launches \$590M Solar & Battery Project in Egypt

The project will deliver energy under a 25-year USD-denominated Power Purchase Agreement (PPA) with the Egyptian Electricity Transmission Company (EETC), ...

WORKING PRINCIPLE

[Enerphy Suisse](#)

The federal government and the cantons promote the use of solar energy with various funding programs. The most important funding programs for photovoltaics are the cost-covering ...

Project Finance for Solar Projects , The Law of Solar ...

Explore comprehensive insights into solar project finance in this chapter from 'The Law of Solar.' Understand risk management, financing structures, and the unique challenges in solar project development. Learn how debt, tax equity, and cash ...

Northland Power Secures Financing to Advance the Jurassic Battery

Jurassic BESS is an 80 MW, 2-hour (160 MWh) battery storage system that is part of Northland's growth pipeline in Alberta. The project recently signed construction ...

MGEN Unit Signs Largest PH Financing Deal

Spanning four municipalities across Nueva Ecija and Bulacan, the project will generate 3,500 MWp of solar power complemented by a 4,500 MWhr battery energy storage system. The project will be developed in two ...
