Solar with battery tender price in Poland 2025

Overview

Explore prices, government subsidies, installation costs, and ROI for home battery storage in Poland's 2025 market. Learn how solar battery systems can save on electricity bills and provide energy independence.

Explore prices, government subsidies, installation costs, and ROI for home battery storage in Poland's 2025 market. Learn how solar battery systems can save on electricity bills and provide energy independence.

Poland's 2025 renewable energy auctions saw solar power dominate once again, with PV projects securing nearly all contracted volumes with a combined 1.67 GW capacity, according to the country's Energy Regulatory Office (URE). Only 2 of the 7 auctions concluded successfully, allocating over 16 TWh.

As expected, Poland's latest capacity market auctions have highlighted a significant shift towards the battery energy storage systems (BESS) beside the fact that the de-rating factor has been significantly decreased. The auction held by Polskie Sieci Elektroenergetyczne S.A. (PSE - an electricity.

On this former military range, ABO Energy is currently building our Gubin solar park. (Wiesbaden/Łódź, 14 August 2025) A major success for ABO Energy in Poland: the project developer has been awarded a contract for its first Polish solar park in the tariff tender issued by the authority URE (Energy.

Poland has unveiled plans for a groundbreaking renewable energy auction on July 4, 2025, backed by a substantial budget of 13.5 billion zlotys (US\$3.34 billion). This ambitious initiative is structured into 10 distinct categories targeting a wide array of renewable energy sources, with the goal of.

The Energy Regulatory Office (URE) has announced the 2025 auction schedule for electricity from renewable energy sources (RES), presenting a significant investment opportunity. Between 1-9 July, seven auctions will offer 75.9 TWh of green energy with a total ceiling value exceeding PLN 31 billion.

Only two of Poland's seven 2025 RES auctions by the Energy Regulatory Office

were resolved, awarding 16 TWh, mostly from PV, for nearly PLN 5 billion. Auction AZ/7/2025 resulted in over 1,623 MW of PV capacity while wind projects secured just 82.7 MW. Image Source: Energy Regulatory Office Poland's.
