Successful bid price of MW scale storage system project in Croatia 2025

Overview

IE Energy has secured €19.8 million (\$20.9 million) to develop a 50 MW storage system, potentially extendable to 110 MW by 2024. The world is rapidly adopting renewable energy alternatives at a remarkable rate to address the ever-increasing environmental crisis of CO₂.

IE Energy has secured €19.8 million (\$20.9 million) to develop a 50 MW storage system, potentially extendable to 110 MW by 2024. The world is rapidly adopting renewable energy alternatives at a remarkable rate to address the ever-increasing environmental crisis of CO₂.

The Government of Croatia is preparing EUR 500 million for the installation of batteries for storing renewable energy. Minister of Economy and Sustainable Development Damir Habijan said Croatia is ready for changes in the energy sector. It is important to conduct the energy sector's green.

The Ministry of Economy and Sustainable Development in Croatia has issued a €60 million (US\$66 million) Call for Funds which seeks projects for renewables, energy efficiency and energy storage totalling 20MWh. The Ministry announced the Call this week (17 April) which will provide €100,000 - €2.

IE-Energy, a startup company based in Rijeka, received approval for a subsidy of 19.8 million euros for the project to build an electrical energy storage system at the grid level. The European Commission has allocated €19.8 million in the form of state aid for a number of projects for grid-scale.

IE Energy has secured €19.8 million (\$20.9 million) to develop a 50 MW storage system, potentially extendable to 110 MW by 2024. The world is rapidly adopting renewable energy alternatives at a remarkable rate to address the ever-increasing environmental crisis of CO₂ emissions. Will.

in Europe's largest energy storage project. IE Energy has secured EUR19.8 million (\$20.9 million) to develop a 50 MW storage system, potentially extendable to 110 MW by 2024 for a series of grid-connected projects. The aid will be a direct grant to IE-Energy and will cover approximately 30% of.

Solar Flex Croatia 2025 conference, organized by Renewable Energy Sources of Croatia (RES Croatia) in collaboration with SolarPower Europe and the European Commission as a general partner, emphasized the key role that investments in power system flexibility and battery system development play in.
