# Successful bid price of Solar Inverter project in Serbia 2030

## Overview

---

The approved maximum bid prices are €79/MWh for wind and €72/MWh for solar PV. The launch is the result of a collaboration between the Ministry of Mining and Energy of Serbia and the European Bank for Reconstruction and Development (EBRD).

The approved maximum bid prices are €79/MWh for wind and €72/MWh for solar PV. The launch is the result of a collaboration between the Ministry of Mining and Energy of Serbia and the European Bank for Reconstruction and Development (EBRD).

Bids for an overall 1,171 MW were submitted, compared to a total quota of 424.8 MW. In the first auctions, bids were placed for 602.8 MW while the quota was 450 MW. The available quota for wind power projects is 300 MW while firms applied for an overall of 673 MW. Bids for 498 MW in total were.

The approved maximum bid prices are €79/MWh for wind and €72/MWh for solar PV. The launch is the result of a collaboration between the Ministry of Mining and Energy of Serbia and the European Bank for Reconstruction and Development (EBRD). The regulatory framework for this auction was developed.

In the second round of auctions for renewable energy market premiums, launched by the Ministry of Mining and Energy in November 2024, investors submitted applications for 41 projects, exceeding the available quota of 424.8 MW for wind and solar power plants. A total of 645 MW received incentives.

Ultimately, the successful bids resulted in an average price of €50.9/MWh for solar projects and €53.5/MWh for wind projects, both below current market rates. This achievement is not only indicative of Serbia's commitment to expanding its renewable portfolio but also highlights the increasing.

Average Prices: €0.0509 (\$0.0533)/kWh for solar and €0.0535/kWh for wind. Investment Value: Approximately €782 million (\$819 million). Power Purchase Agreements: 15-year agreements secured for selected developers. The Serbian Ministry of Mining and Energy announced the results of the auction,

which.

Backed by EBRD and SECO, Serbia's second renewables auction allocated 645 MW of wind and solar capacity, with competitive prices starting at €50.9 per MWh for solar. Investors have submitted 41 proposals in Serbia's second auction, which has exceeded the 424.8 MW quota, and the total awarded.
