# Successful bid price of business energy storage project in Ukraine 2025

## Overview

---

DTEK Group, a private investor in Ukraine's energy sector, has announced a €140m investment plan to construct a series of battery energy storage systems (BESS) in the country with a combined capacity of 200MW.

DTEK Group, a private investor in Ukraine's energy sector, has announced a €140m investment plan to construct a series of battery energy storage systems (BESS) in the country with a combined capacity of 200MW.

Tyligulska Wind Farm - Phase II Expansion, led by DTEK, involves €450 million announced in January 2025 to purchase 64 Vestas wind turbines adding about 384 MW, with ~60 MW online by winter 2025 and 500 MW by 2026. Ukrenergo High-Voltage Line & Substations, funded at roughly €84 million.

Ukrainian energy company DTEK plans to invest €140m (\$155m) to develop a range of energy storage systems with 200MW capacity to bolster the country's energy security and improve grid stability. The initiative will establish DTEK as the country's largest investor in energy storage. Combine business.

In a significant development for Ukraine's energy sector, DTEK Group, the nation's largest private energy company, and Fluence Energy, a leader in energy storage solutions, have announced the successful energization of Ukraine's largest battery-based energy storage project. With a total capacity of.

DTEK's Fluence Gridstack battery units at one of six energy storage sites across Ukraine, part of the country's largest battery energy storage project announced on July 10, 2025. (DTEK press service) DTEK, Ukraine's biggest private energy company, has begun final commissioning of the country's.

DTEK Group, a private investor in Ukraine's energy sector, has announced a €140m investment plan to construct a series of battery energy storage systems (BESS) in the country with a combined capacity of 200MW. The new project aims to strengthen Ukraine's energy security and support the transition.

Consortium loan from Oschadbank, FUIB, and Ukrgasbank finances five of six storage sites (180 MW of 200 MW total capacity) Grid resilience – Storage will stabilise supply during peak load and mitigate blackout risk amid ongoing infrastructure attacks. Energy independence – Part of DTEK’s programme. Why is DTEK launching a battery storage facility in Ukraine?

REUTERS/Valentyn Ogirenko/File photo Purchase Licensing Rights KYIV, Sept 11 (Reuters) - Ukrainian private energy firm DTEK has launched the country's largest battery storage facility to ensure stable power supplies in the face of Russian attacks on Ukraine's energy sector, the company said on Thursday.

What does DTEK's new energy storage system mean for Ukraine?

The new project aims to strengthen Ukraine’s energy security and support the transition to a greener energy system. DTEK Group aims to commission the new storage systems by September 2025.

How much will Ukraine invest in a battery-based energy storage project?

The project, with an investment of €140 million (\$143 million), will lead to the delivery of Ukraine’s first large-scale battery-based energy storage portfolio and the provision of 400MWh of dispatchable power – declared enough to supply short term power for 600,000 homes.

Why is battery storage important in Ukraine?

“Battery storage is a critical element in Ukraine’s vision to build a decentralised energy system that reduces our emissions and enhances our energy security,” commented DTEK CEO Maxim Timchenko. Have you read?

“The partnership with Fluence further signals our commitment to leading the way in battery storage, both in Ukraine and across Europe.

Why is DTEK investing €140m in a battery energy storage system?

(Credit: DTEK) DTEK Group, a private investor in Ukraine’s energy sector, has announced a €140m investment plan to construct a series of battery energy storage systems (BESS) in the country with a combined capacity of 200MW. The new project aims to strengthen Ukraine’s energy security and support the transition to a greener energy system.

How important are energy storage systems in Ukraine?

"In the context of large-scale attacks on Ukraine's energy system, the role of energy storage systems has become just as fundamental as energy generation itself," said energy minister Svitlana Grinchuk. (\$1 = 0.8554 euros)
