Successful bid price of commercial energy storage project in Hungary 2026

Overview

How much does Hungarian government spend on energy storage projects?

The Hungarian government has allocated HUF 62 billion (EUR 158 million) for energy storage projects with an overall 440 MW in operating power. Hungarian authorities launched the tender for grid-scale batteries on January 15 and received offers until February 5. The winning bidders were selected a few days ago.

Is MAVIR building a 20 MW energy storage system in Hungary?

With funds obtained within a previous program, the country's transmission system operator MAVIR is already building a 20 MW energy storage system in Szolnok in central Hungary, the ministry noted.

How do energy storage subsidies work?

The subsidies are secured via the National Recovery and Resilience Plan and the state budget. They consist of non-refundable investment support and income compensation for the construction of energy storage facilities and their operation for at least ten years. The operational support will be provided through two-way contracts for difference.
