Successful bid price of floor standing battery project in Bulgaria 2026

Overview

How many project proposals were submitted in Bulgaria's energy storage procurement procedure?

A total of 151 project proposals were submitted in Bulgaria's standalone energy storage procurement procedure named RESTORE, which is seeking to support the construction and commissioning of renewable energy storage facilities with a cumulative minimum usable capacity of 3 GWh.

Will battery projects improve energy security in Bulgaria?

The successful implementation of battery projects will significantly contribute to the security of the energy system in Bulgaria and the region." The scheme was opened by the Ministry in May, and approved by the EU last month.

How will the selected storage systems be distributed in Bulgaria?

The selected storage systems will be geographically distributed across Bulgaria and connected either to the national transmission grid or local distribution networks. All awarded projects must be operational by March 2026.

What is the largest Bess system in Bulgaria?

The largest BESS online today in Bulgaria is a 25MW/55MWh system deployed by independent power producer (IPP) Renalfa and lithium-ion and BESS manufacturer Hithium.

Successful bid price of floor standing battery project in Bulgaria 2024

Supporting green energy transition in CEE: Schoenherr assists ...

For the first time in Bulgaria, renewable energy and storage auctions were conducted, marking this project as a trailblazing initiative in the transition to clean energy. The ...

Bulgaria opens public consultation on subsidies for 1.9 GWh of battery

Bulgaria's Ministry of Energy has launched a public consultation on a new round of its subsidy program for battery energy storage projects, aimed at facilitating the integration of ...

Bulgaria's 3 GWh standalone energy storage tender ...

A total of 151 project proposals were submitted in Bulgaria's standalone energy storage procurement procedure named RESTORE, which is seeking to support the construction and commissioning of renewable energy ...

Bulgaria 3GWh energy storage tender 4x oversubscribed

Some 151 project bids for support were submitted for the scheme, which will provide up to 1.154 billion BGN (EUR590 million/US\$540 million)

million) for up to 50% of the construction costs of 3.1GWh of standalone energy ...

EU-Funded Projects - Batteries Europe

A solution is needed to extend battery usability and minimise environmental impact. In this context, the EU-funded Battery2Life project aims to transform used batteries into valuable ...

Bulgaria opens EU-funded 3000 MWh stand-alone battery

The design must be prepared and bear the stamp of a certified Bulgarian designer. Successful bidders are expected to conclude their grant agreement around January ...

Sermatec Secures 430+ MWh Energy Storage Project in Bulgaria

Sermatec advances Sino-European green energy collaboration and returns by securing a 430+ MWh energy storage project in Bulgaria.

Bulgaria supports 3.1GW of renewables and 1.1GW of storage ...

In that call, 2,660MW of renewable projects won funding while 1,000MW of energy storage projects were successful, spread across 65 projects winning a total of 427.5 ...

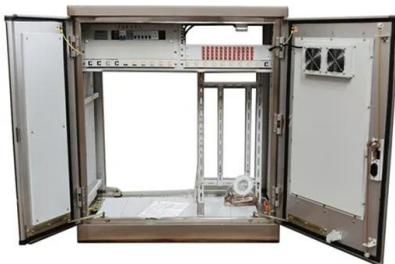

Bulgaria says it is back on track to adopt euro in 2026

Bulgaria says it is back on track to join the Eurozone in 2026, after repeated delays because of political turmoil and failing to meet inflation targets.

Energy storage battery projects - opportunities and challenges

Going forward, the majority of revenue is expected to come from energy arbitrage and participation in capacity markets. Key success factors for battery projects The complexity of ...

Bulgaria's Euro Adoption in 2026: What It Means for ...

On January 1, 2026, Bulgaria is set to replace its national currency, the lev, with the euro, becoming the 21st member of the Eurozone. During the first month of the transition, ATMs across the country will only ...

Bulgaria opens EU-funded 3000 MWh stand-alone battery ...

The deadline for putting the project into operation is 31 March 2026. A key requirement is that a conceptual design of the project must be submitted in the application ...

Bulgaria likely to get EU Commission go-ahead to ...

The European Commission is likely to give Bulgaria the green light on June 4 to adopt the euro currency from the start of 2026, several euro zone officials said, making Bulgaria the 21st country

This is how the initial projects of the 250 battery ...

Spain PowerCo, a subsidiary of Volkswagen Group, is moving ahead rapidly with its battery cell gigafactory project, set to begin foundational work and erect its first pillars this autumn. The plant, expected to employ ...

The standing results of the "National infrastructure for storage of

Implementation of the projects will be carried out through open and competitive tendering procedures based on clear, transparent and non-discriminatory criteria.

Bulgaria's 3GWh standalone energy storage tender 4x ...

The successful implementation of battery projects will significantly contribute to the security of the energy system in Bulgaria and the region." The scheme was opened by the ...

Alstom to supply 35 electric Coradia Stream ...

First passenger trains to be provided by Alstom in Bulgaria and the first new electric interregional trains in the country in the last 20 years The value of the Coradia Stream interregional trains to be manufactured by Alstom ...

Bulgaria euro adoption 2026: A Game-changer for Business, ...

As Bulgaria euro adoption 2026 moves forward, emerging regional hubs like Bansko are set to benefit too. Known for its international business community, vibrant lifestyle, ...

Bulgaria to tender stand-alone battery storage with EU grants

The BESS tender is part of Bulgaria's RESTORE Project, which aims to provide funding for constructing and putting into operation at least 3000 MWh in battery storage ...

Bulgaria to tender stand-alone battery storage with EU grants

1. Expected Tender Requirements The BESS tender is part of Bulgaria's RESTORE Project, which aims to provide funding for constructing and putting into operation at ...

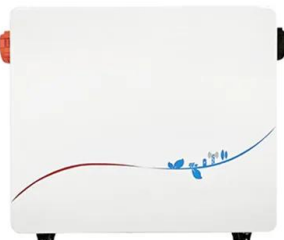

Bulgaria expected to adopt the euro from 2026

Bulgaria's long-standing ambition to adopt the euro is set to be fulfilled when the European Commission and the European Central Bank approve their bid, which could come ...

Bulgarian tender for battery storage awards 9,713 MWh

The 82 successful projects were allocated under the "National infrastructure for storage of renewable energy" (RESTORE) procedure of Bulgaria's National Recovery and Resilience Plan (NRRP). The available EU ...

Bulgaria opens bidding for 3GWh standalone battery energy storage

Bulgaria has called for applications in a tender process for about 3 GWh of energy storage capacity in the country. The scheme was announced earlier in June this year.

Bulgaria to join Eurozone in 2026

The European Commission has finally given Bulgaria the green light to join the Eurozone in 2026, making it the 21st country to join the single currency bloc.

Bulgarian battery project receives strategic status under ...
