

## Global PV Storage Insights

# Successful bid price of industrial battery cabinet project in Greece 2030

## Overview

---

What is the highest subsidy for a battery project in Greece?

The highest awarded subsidy came at €58773/MW/year and refers to a 7.9 MW/31.6 MWh project located in the same region. Greek firm Hellenic Renewables, which is a subsidiary of Helleniq Energy, offered the lowest successful bids for two battery projects of 25 MW/100 MWh each.

How many projects have been awarded in Greece's first battery energy storage system?

The Greek Regulatory Authority for Energy has confirmed that 411.8 MW of projects have been awarded in the country's first standalone battery energy storage system (BESS) tender, which has attracted huge interest among developers. Investment and operating aid will be granted to 12 projects put forward by seven proponents.

Do hybrid batteries lose access to renewables auctions?

As in Spain, hybrid projects with co-located batteries that charge from the grid lose access to renewables auctions, however this has not deterred projects applying for 11B licenses.

How many energy projects did helleniq & Intra Energy bid for?

Helleniq Energy and Intra Energy (Intrakat) are each behind three of these 12 projects, PPC Renewables bid successfully for two projects, while Aenaos (Mytilineos), Energiaki Techniki Anaptyxiaki, Energy Bank, and one energy community bid successfully for one energy storage project each.
