Successful bid price of office building energy storage project in India 2025

Overview

A 250 MW/500 MWh grid-connected battery energy storage system (BESS) tender in the Indian state of Telangana attracted a bid of INR 240,000 (\$2,800) per megawatt of battery capacity per month from domestic company Bondada Engineering. That lowest bid was for 50 MW/100 MWh of battery.

A 250 MW/500 MWh grid-connected battery energy storage system (BESS) tender in the Indian state of Telangana attracted a bid of INR 240,000 (\$2,800) per megawatt of battery capacity per month from domestic company Bondada Engineering. That lowest bid was for 50 MW/100 MWh of battery.

ems (Standalone ESS) emerging as a key enabler. As the country rapidly scales up variable renewable energy (VRE), Standalone ESS offers a dispatchable solution to address the intermittency of renewables, su andalone ESS functions as an independent asset. Utilities, grid operators or third-party.

□Of the total ESS capacity, 40% is under various stages of execution, 27% is cancelled and 30% is under tendering process □As of April 2025, BESS capacity of 400 MWh is operational, with ~0.5 GWh worth capacity expected to come online by Q2 2025 Source: Tender nodal agency websites, press.

On the financing front, Indigrid partnered with the International Finance Corporation (IFC) to develop a 180 MW/360 MWh standalone BESS project in Gujarat, with IFC committing INR 4.3 billion in long-term financing. The partnership marks a boost in private and international investor interest in.

20  A arded, SECI FDRE 6, 200 MW Maharashtra .

Bondada Engineering, Pace Digitek and TrueRE-Oriana Power have emerged winners in Telangana Power Generation Corp's tender for 250 MW/500 MWh

standalone battery energy storage with viability gap funding. Telangana Power Generation Corp.'s tender for 500 MWh (250 MW x two hours) of standalone.
