Successful bid price of photovoltaic ESS project in Serbia 2026

Overview

The ministry reported that the winning solar projects received a price of €50.9/MWh, while the winning wind projects received €53.5/MWh, significantly lower than the maximum permitted bids of €72/MWh and €79/MWh, respectively.

The ministry reported that the winning solar projects received a price of €50.9/MWh, while the winning wind projects received €53.5/MWh, significantly lower than the maximum permitted bids of €72/MWh and €79/MWh, respectively.

Bids for an overall 1,171 MW were submitted, compared to a total quota of 424.8 MW. In the first auctions, bids were placed for 602.8 MW while the quota was 450 MW. The available quota for wind power projects is 300 MW while firms applied for an overall of 673 MW. Bids for 498 MW in total were.

The Serbian Ministry of Energy and Mining has awarded tenders for ten solar and wind projects with a total capacity of 645MW. The government announced the tender in November 2024, and called for just 124.8MW of solar capacity, alongside 300MW of wind capacity. The successful bids were hailed as.

Through this tender, the country seeks to contract up to 300 MW of wind and 124.8 MW of solar photovoltaic (PV) projects. The approved maximum bid prices are EUR 79.00 (USD 83.1) per MWh for wind and EUR 72.00/MWh for solar PV. The deadline for interested parties to submit their offers is February.

Serbia has made significant strides in its renewable energy sector by successfully completing its second renewables auction, allocating a total of 645 MW across ten solar and wind projects. This initiative is part of the country's broader strategy to enhance energy security and transition towards a.

The success of this process is reflected in the strong investor interest and highly competitive prices, with up to 10 new wind and solar power plants set to be built. Investors submitted 41 project proposals in the second auction round, significantly exceeding the offered quota of 424.8 MW for.

The approved maximum bid prices are €79/MWh for wind and €72/MWh for solar PV. The launch is the result of a collaboration between the Ministry of Mining and Energy of Serbia and the European Bank for Reconstruction and Development (EBRD). The regulatory framework for this auction was developed.

Successful bid price of photovoltaic ESS project in Serbia 2026
